## ANES 2012 POST-ELECTION QUESTIONNAIRE 01/14/2013

## INCLUDED IN BOTH FTF AND INTERNET MODES:

- Items not labeled for mode were administered in both the face-to-face and internet instruments
- Items labeled CASI (not "CASI ONLY") were administered using CASI for some items of the FTF instrument and were also present in the internet version

## INCLUDED FTF ONLY OR INTERNET ONLY:

"FTF ONLY" - administered face-to-face by an interviewer using CAPI but not included in the internet instrument;
"CASI ONLY" - administered using Computer-Assisted Self Interviewing for the face-to-face interview but not included
in the internet instrument;
"WEB ONLY" - included in the internet instrument but not in the face-to-face interview.

## Question text:

1. bold words or phrases are to be emphasized [FTF].
2. ( ) parentheses indicate a word or phrase that is optional, that is, included at the discretion of the IWR [FTF].
3. [preload: ] indicates programmed insertion of preload text or value into question text.
4. [ / ] indicates wording alternatives separated by '/' within the square brackets.
5. \{ \} brackets are used for interviewer instructions which appear onscreen after spacing following the question text [FTF].
6. Variable names prepg_a through prepg_z are reserved for references to unique pages in Respondent Booklet; multiple questions may refer to the same page number. Page number values will be assigned to prepg variable when content is final.

Response options:

1. [preload: ] indicates insertion of preload text or value into response option label.
2. \{VOL\} indicates a response option not indicated in the question text but acceptable as a coded value when given as a response [FTF].
3. \{SPECIFY\} usually appears with the 'Other' category and indicates that after entering the code value a text box should appear for entry of specific verbatim response [FTF].
4. Dates, time durations, and monetary unit numeric entries are to be confirmed [FTF]
5. DK and RF are assumed default missing data categories unless indicated otherwise. Any indicated "nondefault" nonresponse categories are additional to default DK and RF unless indicated otherwise.

[STUDY NAME REDACTED]
This is the third in a series of four surveys. As you know, in appreciation of your participation, we can give you $\$ 10$ for completing each survey. Each one should take about 30 minutes. In addition, because we really need you to complete all four surveys, if you complete all four then we will give you another $\$ 25$ at the end of the study. If you do all four surveys, that's a total of $\$ 65$.

The [study name redacted] is sponsored by Stanford University and the University of Michigan. If you have any questions or comments about the survey, you may contact [NAME REDACTED] at [PHONE REDACTED], or by email at [E-MAIL REDACTED].

If you are not satisfied with how this study is being conducted, or if you have any concerns, complaints, or general questions about the
research or your rights as a participant, please contact [REDACTED] to speak to someone independent of the research team toll free at [PHONE REDACTED]. You can also write to [REDACTED].

section: THERMPO
"INTRO - POST-ELECTION POLITICAL FIGURE THERMOMETERS"
Please look at page [preload: postpg_c] of the booklet.
I'd like to get your feelings toward some of our political leaders and other people who are in the news these days. I'll read the name of a person and I'd like you to rate that person using something we call the feeling thermometer.

Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the person and that you don't care too much for that person. You would rate the person at the 50 degree mark if you don't feel particularly warm or cold toward the person.

If we come to a person whose name you don't recognize, you don't need to rate that person. Just tell me and we'll move on to the next one.
response type: Display only
WEB LOGIC:
Online, in this section, do not use the standard nonresponse prompt; just move on to the next question. Also, use the following question text:
"Please look at the graphic below.
We would like to get your feelings toward some of our political
leaders and other people who are in the news these days. We will show
the name of a person and we'd like you to rate that person
using something we call the feeling thermometer.
Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the person and that you don't care too much for that person. You would rate the person at the 50 degree mark if you don't feel particularly warm or cold toward the person.
If we come to a person whose name you don't recognize, you don't need to rate that person. Just click "Next" and we'll move on to the next one."
Also, display the feeling thermometer graphic onscreen on this intro screen and with each item in this section.

Show numbers on all five scale points in the response options.
"CSES: 5pt scale: make a difference who one votes for"
Now turning to page [preload: postpg_m] in the booklet. Some people say that no matter who people vote for, it won't make any difference to what happens. Others say that who people vote for can make a big difference to what happens. Using the scale in the booklet, (where one means that voting won't make any difference to what happens and five means that voting can make a big difference), where would you place yourself?
\{INTERVIEWER: DO NOT PROBE DON'T KNOW\}

1. Voting won't make any difference
2. 
3. 
4. 

## 5. Voting can make a big difference

| response type: | Single Punch |
| :--- | :--- |
| response order: | Order as listed |

WEB LOGIC:
Online, omit the booklet reference in the first line. Change 'Using
the scale in the booklet' to 'Using the scale below'.
Show numbers on all five scale points in the response options.

## "CSES: 10pt scale: like-dislike Democratic Party"

(CSES_DPTYLIKE)
Please turn to page [preload: postpg_n] of the booklet. I'd like to know what you think about our political parties. After I read the name of a political party, please rate it on a scale from 0 to 10 , where 0 means you strongly dislike that party and 10 means that you strongly like that party. If I come to a party you haven't heard of or you feel you do not know enough about, just say so.
The first party is the Democratic party.
\{INTERVIEWER: DO NOT PROBE DON'T KNOW\}
0 . Strongly dislike
1.
2.
3.
4.
5.
6.
7.
8.
9.
10. Strongly like

| response type: | Single Punch |
| :--- | :--- |
| response order: | Order as listed |
| nondefault nonresp: | 99. Haven't heard of |

## WEB LOGIC:

Online, number each response option 0 to 10 . Render the question text
as follows:
We would like to know what you think about our political parties.
Please rate each political party on a scale from 0 to 10, where 0
means you strongly dislike that party and 10 means that you strongly
like that party. If we come to a party you haven't heard of or you
feel you do not know enough about, you don't have to answer.
The first party is the DEMOCRATIC PARTY.

## "CSES: 10pt scale: like-dislike Republican Party"

Using the same scale, where would you place the Republican party?
\{INTERVIEWER: DO NOT PROBE DON'T KNOW\}
0. Strongly dislike
1.
2.
3.
4.
5.
6.
7.
9.
10. Strongly like

| response type: | Single Punch |
| :--- | :--- |
| response order: | Order as listed |
| nondefault nonresp: | 99. Haven't heard of |

WEB LOGIC:
Online, number each response option 0 to 10.

## "CSES: 10pt scale: like-dislike Republican Pres cand"

And what do you think of the presidential candidates?
After I read the name of a presidential candidate, please rate them on a scale from 0 to 10 , where 0 means you strongly dislike that candidate and 10 means that you strongly like that candidate. If I come to a presidential candidate you haven't heard of or you feel you do not know enough about, just say so.
The first is [preload: rep_pcname]
\{INTERVIEWER: DO NOT PROBE DON'T KNOW\}
0. Strongly dislike
1.
2.
3.
4.
5.
6.
7.
8.
9.
10. Strongly like
response type: Single Punch

## "CASI Is increased income inequality in U.S. good"

(INEQINC_INEQGB)
The difference in incomes has grown in the past few decades, as shown
below.
Average Household Incomes, Top 20\% and Bottom 20\%: 1967 to 2009

The blue line on top shows that the incomes of households in the top 20\% has increased from about \$100,000 in 1967 to about \$171,000 in 2009 (all income figures are in 2009 dollars).

The red line on the bottom shows that the income of households in the bottom $20 \%$ has increased from about \$9,000 in 1967 to about \$11,500 in 2009.

In 1967, households in the top 20\% earned an average of 11 times as much as households in the bottom 20\%. Today, the top earn an average of 15 times as much.

Is it good, bad, or neither good nor bad that the difference between the top and the bottom incomes has changed this way?
