- b. So many other people vote in the national elections that it doesn't matter much to me whether I vote or not.
- c. If a person doesn't care how an election comes out then that person shouldn't vote in it.

G1. (R.B., P.1) I'd like to get your feelings toward some of our political leaders and other people who are in the news these days.

I'll read the name of a person and I'd like you to rate that person using this feeling thermometer. You may use any number from 0 to 100 for rating. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 degrees and 50 degrees mean that you don't feel too favorable toward the person.

If we come to a person whose name you don't recognize, you don't need to rate that person. Just tell me and we'll move on to the next one.

If you do recognize the name, but don't feel particularly warm or cold toward the person, you would rate the person at the 50 degree mark.

Our first person is Jimmy Carter. How would you rate him using the thermometer?
