Version 01 Codebook
-------------------
CODEBOOK VARIABLE DOCUMENTATION
1994 POST-ELECTION STUDY
(1994.TN)

                              1994 NES
                          VARIABLE ENTRIES

This file should be opened in fixed font, 10 pitch or smaller.
Codebook introductory material and appendix material are in
separate files.
-----------------------------------------------------------------

NOTE ON VARIABLE NAMING:

The variable name references used in NES Study codebooks do not include
the "V" prefix found in all variable names used within the released
SAS and SPSS data definition files (.sas and .sps files).

For example, "VAR 920001" and "VAR VERSION" in Study codebooks refer to
V920001 and VVERSION in the study data definition files.

VARIABLE 'NUMBERING':

'Numbered' variables in NES timeseries datasets and in Pilot datasets
(except the 1998 Pilot) comply with the following format:

     2-digit year prefix  +  4 digits  +  [opt] 1-char suffix.

Examples:  1978 Post variable V780002; 1983 Pilot variable V832101.
Note that for datasets including data from multiple studies, the 2-digit
year prefix corresponds to the appropriate study year to which the
variable is associated; for example, the 1983 Pilot dataset also includes
1982 timeseries variables, for which the 2-digit prefix is 82.

Non-time-series studies other than Pilots use 2-character mnemonic
prefixes, for example variable VPS0048 in the 1988-1990-1992 Pooled
Senate Study dataset.

SPECIAL NOTE ON COLUMN LOCATIONS:

Some numeric variables use coding schemes that allow for code values
having a varying number of digits. In such instances, the number
of columns corresponding to the variable in the data file [.dat file]
and in the column specifications  will be the width of the maximum value
occurring in the actual data, rather than the maximum width allowable
by the coding scheme.  For example, if codes 01-12 are allowed for a
numeric variable but all values in the data are less than 10, then the
number of columns corresponding to the variable within the ASCII data
file will be 1.

==============================
VAR VERSION    NAME-NES VERSION NUMBER
               COLUMNS 1    - 2
               NUMERIC
```

```
              NO MISSING DATA CODES

                 NES VERSION NUMBER
                 .................

==============================
VAR DSETNO      NAME-NES DATASET NUMBER
                COLUMNS 3    - 9
                CHARACTER
                NO MISSING DATA CODES

                1994: PANEL/CROSS-SECTION INDICATOR
                ----------------------------------

                759  1.  PANEL IN 1994 (Tan Coversheet)
```

```
          1036   2.  CROSS-SECTION IN 1994 (Lilac Coversheet)

==============================
VAR 940003    94PO: 93PILOT INDICATOR
              COLUMNS 19   - 19
              NUMERIC
              NOMISSING DATA CODES

              93 PILOT INDICATOR
              -----------------

           631   1.  R interviewed in: 92 Pre-post, the 93 Pilot and the
                     94 Post Study
           128   2.  R interviewed in: 92 Pre-post and the 94 Post Study
          1036   3.  94 cross-section

==============================
VAR 940004    94PO: FULL SAMPLE WEIGHT
              COLUMNS 20   - 25
              NUMERIC    DEC 4
              NOMISSING DATA CODES

              FULL SAMPLE WEIGHT
              -----------------

              This weight compensates for the unequal probabilities of
              selection for respondents in different size households and
              for different non-response across geographic sample design
              categories and between panel and cross-section respondents.
              It is post-stratified to the July 1993 Census population
              projections for 24 age, by sex by Census region categories
              (Current Population Reports, P25-1111, Table 4).  This is a
              6 digit variable with a coded decimal point and 4 actual

              This weight is particularly appropriate for descriptive
              statistics. See also the "Construction of Analysis Weights"
              in the Sample Design section of the Appendix to the codebook
              for the 1994 Post-election Survey.

==============================
VAR 940005    94PO: PANEL ONLY WEIGHT
              COLUMNS 26   - 31
              NUMERIC    DEC 4
              NOMISSING DATA CODES

              PANEL ONLY WEIGHT
              -----------------

              This weight is to be used for analyses which use only the
              759 panel cases; the cross-section cases have a value of "0"
              in this field.  The weight compensates for the unequal
              probabilities of selection for respondents in different size
              households, and for differential nonresponse across
              geographic sample design categories.  It is post-stratified
              to the July 1993 Census population projections for 24 age,
              by sex by Census region categories (Current Population
              Reports, P25-1111, Table 4).

              This weight is centered with a mean of 1.0.  This is a 6
```

digit variable with a coded decimal point and 4 actual

```
==============================
VAR 940006      94PO: TIME SERIES WEIGHT
                COLUMNS 32   - 37
                NUMERIC     DEC 4
                NOMISSING DATA CODES

                TIME SERIES WEIGHT
                ------------------

                This weight should be used in analyses in which the 1994
                Panel is compared to earlier unweighted National Election
                Studies data collections.  Variable 6 corrects for panel
                attrition and for the aging of the panel respondents.
                Details on the construction of this variable are provided in
                the Sample Design section of the Appendix to the codebook
                for the 1994 Post-election Survey.

                This weight is centered with a mean of 1.0.  This is a 6
                digit variable with a coded decimal point and 4 actual

                in this variable.

==============================
VAR 940006A     94PO: TIME SERIES WEIGHT
                COLUMNS 38   - 43
                NUMERIC     DEC 4
                NOMISSING DATA CODES

                ADDITONAL TIME SERIES WEIGHT - POST-STRATIFIED
                ----------------------------------------------

                        This weight was created because V940006 did not
                        correct for an underrepresentation in study data
                        of younger and less-educated respondents. V960006A
                        is constructed to post-stratify the NES data to
                        match the Current Population Study (CPS) estimate
                        of the distribution of age group by education level.
                        See "NEW WEIGHTS FOR THE 1996 STUDY" in the introductory
                        portion of this codebook and Appendix document
                        "Post-Stratified Cross-Sectional Analysis Weights
                        the 1992, 1994 and 1996 NES data."
                        This weight should be used in analyses in which the 1994
                        Panel is compared to earlier unweighted National Election
                        Studies data collections.
                        This weight is centered with a mean of 1.0.  This is a 6-
                        digit variable with a coded decimal point and 4 actual

==============================
VAR 940007      94PO: FORM YELLOW/BLUE
                COLUMNS 44   - 44
                NUMERIC
                NOMISSING DATA CODES

                FORM
                ----
```

The original form assignment is recorded here. The only
function of this variable is to assign cases to the ballot
card experiment.

In 1994 respondents were presented alternative versions of
the ballot card identical in content, but different in
design. Please see Appendix V, Note 4 for sample ballots of
each design.

Users wishing to employ Form in their analysis should use
V611 as a filter to eliminate either cases administered over
the phone or cases where it is unclear which form was used.

```
890   1.   YELLOW
905   2.   BLUE
```

```
===============================
VAR 940008    94PO: PRIMARY AREA CODE
              COLUMNS 45   - 47
              NUMERIC
              NOMISSING DATA CODES

              PRIMARY AREA
              ------------
```

For Panel respondents who moved since the 1992 Pre-election
study, the primary area corresponding to their original
sampling address was coded here.

The first digit of the Primary Area Code (4 or 5) is
meaningless to the user. Its purpose is to allow the
Sampling office to track the history of segments as they
become active. In the code below, the first digit has been
replaced by a "dot" to avoid double listing of the same
Primary Area.

```
.01   New York, NY

                    .82    El Dorado Co, CA
                    .84    Carbon Co, WY

===============================
VAR 940009    94PO: PRIMARY AREA NAME              ALPHANUMERIC
              COLUMNS 48   - 68
              CHARACTER
              NOMISSING DATA CODES

              PRIMARY AREA NAME
              -----------------

              This is an alphabetic variable.  For the Panel component of
              the sample, variable 9 refers to the primary area of the
              segment from which respondent's household was selected in
              1992; respondent may have moved since then.  For
              Cross-Section component, it reflects the primary area of the
              segment from which the 1994 respondent was selected and was
              living when interviewed in 1994.

===============================
VAR 940010    94PO: SEGMENT
              COLUMNS 69   - 69
              NUMERIC
              NOMISSING DATA CODES
```

```
                  SEGMENT
                  -------

                  For Panel component, variable 10 refers to the location of
                  the area segment from which the respondent's household was
                  selected in 1992; respondent may have moved since then.  For
                  Cross-Section component, it reflects the location of the
                  area segment from which the 1994 respondent was selected and
                  was living when interviewed in 1994.

                  This variable has been recoded toMISSING data for the
                  Public Use Data File.  Contact NES if access to this
                  information in desired.

              PANEL SUMMARY 1992,1994:  DID R MOVE BETWEEN 1992 AND 1994

              (1994 INTERVIEW LOCATION DIFFERENT FROM 1992 LOCATION)?.
              ----------------------------------------------------------

              Sabine Parish (Primary area 474) was redistricted after the
              1992 election from LA06 to LA04.  Several panel respondents
              who resided in this PA in 1992 had moved before the 1994
              interview, but all were located in 1994 within new district

VAR 940024   94PO: 92 CD ASSIGNMENT WRONG
             COLUMNS 100  - 100
             NUMERIC
             MISSING 0

             PANEL SUMMARY 1992: WAS 1992 CD ASSIGNMENT IN ERROR?
             ----------------------------------------------------

             Code 1 includes the following PAs and segments:  501-103,
             501-148,503-129, 505-105, 511-111, 516-108 (part), 528-106,
             557-104, 515-105, 481-008.

             Code 3 - in 1992, it was thought that this case had been
             assigned the wrong CD number; the CD number was changed and
             the substantive data for this case were made NA in 1992.
             However, it was discovered in 1994 that the 1992
             'correction' itself was a misassignment (the original 1992
             CD assignment was correct); in the 1994 data the 1994 CD is
             correct but no further change to the 1992 data (1992 CD
             number or 1992 substantive data) has been made.  Note that
             for this case the 93 Pilot was administered according to the
             original (correct) 92 CD assignment.

       45   1.  Yes, 1992 CD error, discovered in 1994; CD number
                 and substantive responses in 1992 data have not been
                 corrected
        6   2.  Yes, 1992 CD error, discovered in 1992; CD number
                 corrected and substantive responses were made NA in
```

```
                      1992
             1   3.  Yes, 1992 CD error, both 1 and 2 apply
           708   5.  No, 1992 CD assignment was not in error

VAR 940027    94PO: R REGIST IN 94 CD LOCATION
              COLUMNS 103  - 103
              NUMERIC
              MISSING 0

              SUMMARY 1994: WAS R REGISTERED TO VOTE IN CONGRESSIONAL
              DISTRICT OF 1994 INTERVIEW LOCATION?
              ----------------------------------------------------------

              Interview location is the location where R was residing at
              the time of the 1994 interview. This variable was built by

              comparing the county where R says they are registered with
              current CD assignment.  In a very few cases, due to split
              county CDs, the information was ambiguous but almost always
              it was possible to determine whether the county was in the
              same or a different CD.

          1343  1.  Yes, R registered in CD where interviewed in 1994
            37  2.  No, R not registered in CD of interview location
            23  9.  Not clear whether registration in same or different
                    CD (DK/NA where R registered: 8,9 in v603, 99999 in
                    v604, or CD is 99 and state is not different from
                    state of interview in V20)

           393  0.  Inap, R not registered (5 in 602); DK/NA whether R
                    registered or R says not required to register (6,8,9
                    in 602); refused to say whether voted (6 in 601)

==============================
VAR 940028    94PO: CAND NAMES/CAND RUNNING
              COLUMNS 104  - 104
              NUMERIC
              MISSING GE 9

              SUMMARY 1994:  WERE CANDIDATE NAMES ADMINISTERED IN 1994 THE
              SAME AS THE CANDIDATES RUNNING IN THE DISTRICT WHERE R WAS
              REGISTERED/VOTED IN 1994?
              ----------------------------------------------------------

              This variable compares the congressional candidates which
              the R was asked to evaluate throughout the 1994
              questionnaire, with those who actually were on the ballot in
              the congressional district where R voted (or would have
              voted). V28 incorporates the information from V26 and V27,
              that is, was R read the correct set of candidate names, and
              was the R registered to vote in the congressional district
              in which h/she was actually interviewed.

          1331  0.  Yes, administered names same as vote choice names
            12  1.  No, not same, due to error in candidate name
                    administration (1,2 in V26)
            37  2.  No, not same, R registered in district other than
                    the district of candidates whose names were
                    administered (2 in V27)
                3.  No, not same, both 1 and 2 apply
             2  4.  No, not same, both 1 and 9 apply
```

```
            414   9.  Inap, 0,9 in V27

==============================
VAR 940029    94PO: EVAL SAME INCUMBENT 92/94
              COLUMNS 105  - 105
              NUMERIC
              MISSING 0

              PANEL SUMMARY 1992,1994:  DID R EVALUATE THE SAME INCUMBENT
              CANDIDATE IN 1992 AND 1994?
              ------------------------------------------------------------

              This variable incorporates information from V17, V22-V24 and
              V26.

              The 1994 administered candidate names were, in all cases
              except those of error (1,2 in V26), the names of the
              candidates who ran in the CD of R's residence at the time of
              the 1994 interview.

            504   1.  Yes, 1994 incumbent was also evaluated in 1992
            117   2.  No, because type of race for 1994 IW location did
                      not include an incumbent (55,65,75 in V17)
             53   3.  No, because CD of 1994 interview location was
                      different from CD of 1992 interview:  R either moved
                      to a different CD after 1992 (1 in V22) or R has 2
                      residences and lived at different residence in 1994
                      (3 in V22)
             23   4.  No, because R was redistricted after 1992:  R's 1994
                      incumbent was not a candidate in R's 1992 CD (1 in
                      V23, Sabine Parish LA; no cases in this category
                      also fit into codes 2,3 or 5)
             46   5.  No, because an error was made in the 1992 or 1994 CD
                      assignment (1,2,3 in V24 or 1,2 in V26)
              6   6.  No, both 2 and 3
              3   7.  No, both 2 and 5
              5   8.  No, both 3 and 5
              3   9.  Candidate names were consistent but wrong CD (wrong
                      names) in both 1992 and 1994 (3 cases)

           1036   0.  Inap, 1994 cross-section

               NOMISSING DATA CODES

               SELECTION TABLE
               ---------------
```

The Selection Table is used to select a respondent from all
household members who are eligible adults. (An eligible
adult is a U.S. citizen who is 18 years of age or older by
Election Day.) The Selection Table appears on the
Coversheet below the Household Listing.

After a complete listing of the HH is taken, each eligible
adult is assigned a "Number" based on the criteria of gender
and age [beginning with the oldest male as number 1, males
are numbered by increments of 1 according to descending age;
females are numbered by descending age starting with the
number one higher than that assigned to the youngest male].
The interviewer then uses the Selection Table to determine
the "Number" of the eligible adult to be interviewed.

The Selection Table itself consists of 2 parallel columns.
In the first column the interviewer circles the total number
of eligible adults in the household; in the second column
(same row) is identified the "Number" of the person who will
be the respondent.

There are 8 different Selection Tables used and they are
randomly assigned. [Note that although only 8 tables are
used, there are 12 codes in this variable because the 8
tables are used in cycles of 12; this procedure is used to

equalize the probability of selection for each eligible
adult]. A summary describing all 8 Selection Tables appears
below.

PERSONS	PERSON SELECTED (person "Number")						
	A	B1	B2	C	D	E1	E2	F
1	1	1	1	1	1	1	1	1
2	1	1	1	1	2	2	2	2
3	1	1	1	2	2	3	3	3
4	1	1	2	2	3	3	4	4

            BELT CODE - 1990 - NES
            ----------------------

            For Panel respondents who moved since the 1992 Pre-election
            study, the data corresponding to their original sampling
            address was coded here.

            Coded according to the 1990 Census and 1990 Office of
            Management and Budget (OMB) definitions, 1990 census
            population reports and 1980 (since 1990 not available) maps
            showing "urban areas".

          222   1.  Central Cities (*) of the six largest (**)
                    (population over 4,500,000) Consolidated
                    Metropolitan Statistical Areas (CMSAs), plus 12
                    (***) of the 15 next largest CMSA/MSA (population
                    over 2,000,000).
                    This would include all 1980 National Sample Frame
                    self-representing areas, plus Newark, NJ (as well
                    as Self Representing (SRP) Nassau-Suffolk NY as
                    part of the NYC CMSA) and Anaheim and Riverside
```

CA (as part of the LA CMSA) plus three other
non-self representing primary areas included
within the "population over 2,000,000" definition
(Miami-Fort Lauderdale, FL CMSA, Seattle-Tacoma,
WA CMSA, and Phoenix, AZ MSA).

```
286   2.  Central Cities of CMSAs and Metropolitan Statistical
          Areas (MSAs) with fewer than 2,000,000 population
          (exclusive of those in the twenty-one largest
          CMSA/MSAs--i.e., those listed above)
388   3.  Suburbs (****) of the six largest CMSAs and 12 of
          the 15 next largest CMSA/MSAs.
338   4.  Suburbs of all other CMSA/MSAs.
494   5.  Adjacent Areas:  includes all territory beyond the
          outer boundary of the suburban belt, but within
          fifty miles of the central business district of a
          central city.
 66   6.  Outlying Area:  includes all territory more than

          fifty miles
```

(*) Central Cities designated in Metropolitan Statistical
Areas, 1990, U.S. Office of Management and Budget,
Washington, DC (Jun 1990).

(**) Statistical Abstract of the United States 1991, (111th
Edition), U.S. Department of Commerce, Economics and
Statistics Administration, Bureau of the Census, Table No.
38. "70 Largest Metropolitan Areas -- Racial and Hispanic
Origin Populations: 1990" Pp 33.

(***) Cleveland-Akron-Lorain, OH CMSA, Tampa-St
Petersburg-Clearwater, FL CMSA and San Diego, CA MSA are not
primary selections within the two-thirds SRC National Sample
so do not occur in the 1992 NES data set.

(****) Suburbs are defined as all "urbanized areas" in the
Primary Area exclusive of the areas coded "1" and "2" above,
plus the remainder of any county which includes a central
city or parts of a central city. (NOTE: In the New England
division where MSA boundaries do not follow county lines, it
is necessary to limit this category to the SMSA part of a
county which included a central city.)

VAR 940061    94PO: SIZE OF PLACE
              COLUMNS 155  - 156
              NUMERIC
              NOMISSING DATA CODES

              SIZE OF PLACE OF INTERVIEW - 1990
              --------------------------------

              For Panel respondents who moved since the 1992 Pre-election
              study, the data corresponding to their original sampling
              address was coded here.

              Coded according to the 1990 Census.  The major objective of
              the Census Bureau in delineating urbanized areas is to
              provide a better separation of urban and rural population in
              the vicinity of large cities.  An urbanized area consists of
              a central city or cities, and surrounding closely settled
              territory ("urban fringe").  Size of Place codes 21 and 41
              include areas that are in the "urban fringe" but are not
              Census Places.  Again, it should be noted that Panel
              respondents may have moved from place of first interview.

              The six largest CMSAs plus twelve of the fifteen next
              largest CMSA/MSAs (i.e., those coded 1 or 3 (possibly 5,
              rarely 6) on the Belt Code):

          222   11.  Central Cities (these would have been coded 1 on
                       the Belt Code).

              Suburbs of the six largest CMSAs and twelve of the fifteen
              next largest CMSA/MSAs (coded 3 (sometimes 5 and rarely 6)
              on Belt Code):

           36   20.  Rural (including rural places with less than 2500
                       population)
           97   21.  2,500-9,999 plus other urbanized areas ("urban
                       fringe" not in Census places)
          112   22.  10,000-29,999
           35   23.  30,000-49,999
          119   24.  50,000-99,999
           18   25.  100,000-149,999
            5   26.  150,000-349,999
                27.  350,000 and over, exclusive of cities coded 11

              CMSA/MSAs with less than 2,000,000 population (exclusive of
              those in the six largest CMSAs and 12 of 15 next largest
              CMSA/MSAs)

              Central Cities in CMSA/MSAs with less than 2,000,000
              population (coded 2 on Belt Code):

           47   30.  Under 50,000 (identified by OMB in 1990 as Central
```

```
                         Cities)
          47    31.  50,000-99,999
          24    32.  100,000-149,999
          85    33.  150,000-349,999
          83    34.  350,000 and over

              Suburbs in CMSA/MSAs with less than 2,000,000 population
              (coded 4 (or 5 and rarely 6) on Belt Code):

         139    40.  Rural (including rural places with less than 2,500
                     population)
         160    41.  2,500-9,999 plus other urbanized areas ("urban
                     fringe" not in Census Places)
          50    42.  10,000-29,999
          28    43.  30,000-49,999
          17    44.  50,000-99,999
          30    45.  100,000-149,999
           5    46.  150,000 and over

              "NON-CMSA/PMSA/MSAs"  Population of place, within these
              "non-MSA" areas, as reported in 1990 Census.

         271    50.  Rural (including places with less than 2,500
                     population)
          73    51.  2,500-9,999
          82    52.  10,000-29,999
          10    53.  30,000-49,999

              In a few cases, Non-MSA PSUs (based on the 1980 OMB SMSA
              definitions) contain areas which are now part of a 1990 PMSA
              or MSA (based on the June 1990 OMB definition). In these
              cases, the Size of Place Code for any SSUs (segments) within
              such areas are coded in the "40s" rather than in the "50s"
              as shown below. This occurred in El Dorado county, CA (the
              major part of the El Dorado/Alpine Co, CA PSU #82) which is
              now a part of the Sacramento, CA, MSA, and also for one SSU
              (segment) in the Gardner, MA (PSU #64) which is now a part
              of the Worcester, MA, MSA.

VAR 940066    94PO: 1980 SMSA CODE
              COLUMNS 162  - 165
              NUMERIC
              MISSING 0

              1980 CENSUS SMSA CODE
              --------------------

              For Panel respondents who moved since the 1992 Pre-election
              study, the data corresponding to their original sampling
              address was coded here.

              These SMSA codes were obtained from the Federal Information
              Processing Standard Publication, U.S. Department of
              Commerce, National Bureau of Standards.

              The 1980 SMSA Codes have for the most part been carried over

              by the Office of Management and Budget (OMB) to the 1990
              Metropolitan Statistical Areas (MSA's).  However, some MSA
              names and definitions have been modified by OMB to reflect
              shifts in population and changes in characteristics of
              areas.  In the 1994 NES data, the 1980 SMSA codes have been
              retained for all parts of the MSA primary sampling units
              (PSU's).  It should be remembered that, particularly in the
              case of PMSAs (which are part of consolidated areas (or
              CMSAs) some counties or county parts may in 1990 be defined
              by OMB as part of a different PMSA (a good example is
              Chicago, IL).  It was felt that for NES analysis, to retain
              the older SMSA codes, which correspond to the 1980 sampling
              frame used for this sample, was most appropriate for all MSA
              or PMSA areas.

              In those areas designated "Non-SMSA" in our sample frame
              ("Non-MSA" on most of our documentation for 1992 NES), there
              are two PSUs (#464, Gardner, MA, and #482, El Dorado/Alpine,
              CA) in which some of the 1980 rural area has in 1990 met the
              requirements for inclusion in an MSA; in these cases the
              size of place code was modified to reflect this and the 1990
              MSA number is indicated for the affected segments (segment
              009 in Gardner, MA, used in both the 1994 cross-section and
              the 1994 panel, where Barre town--not associated with any
              SMSA in 1980--is now a part of the 1990 Worcester, MA, MSA,
              and all of the 1994 NES segments in El Dorado/Alpine, CA,--
              i.e., cross-section segments 002, 004, 005, 007, 009 and 012
              and panel segment 007 -- all in El Dorado county which is
              part of the 1990 Sacramento, CA, MSA.)

              Q.A1.      In this interview I will be talking with you
              about the recent elections, as well as a number of other
              things.  First, I have some questions about the political
              campaigns which took place this election year.

              Some people don't pay much attention to political campaigns.
              How about you?  Would you say that you were very much
```

```
              interested, somewhat interested, or not much interested in
              following the political campaigns this year?

            MISSING 0 OR GE 98

            Q.B10a(1).  Who were they? <1st mention> (PROBE: Any
            others?)
            ----------------------------------------------------

            <see Q.B10 for complete question text>

            Precoded by interviewer

            If a senator, senatorial candidate, or gubernatorial
            candidate was mentioned at Q.B10a, the senator or senatorial
            candidate (#11-19, 27-29) or gubernatorial candidate
            (#51-56) was coded.  Built variables Q.B10aa (code 7) and
            Q.B10x (codes 4,5) assigned these cases to "name given not
            on candidate list for that race,"or "invalid candidate name
            given."

            Senatorial Candidates or Senators Mentioned:

              10.   INDEPENDENT OR MINOR PARTY SENATE CANDIDATE
         14   11.   DEMOCRATIC CANDIDATE TO SENATE
         29   12.   REPUBLICAN CANDIDATE TO SENATE
         40   13.   DEMOCRATIC INCUMBENT TO SENATE
          9   14.   REPUBLICAN INCUMBENT TO SENATE
          2   15.   DEMOCRATIC CHALLENGER TO SENATE
          7   16.   REPUBLICAN CHALLENGER TO SENATE
          1   17.   DEMOCRATIC SENATOR 1 [NO RACE]
          1   18.   REPUBLICAN SENATOR 1 [NO RACE]
          4   19.   DEMOCRATIC SENATOR NOT UP
          5   29.   REPUBLICAN SENATOR NOT UP
              27.   DEMOCRATIC SENATOR 2 [NO RACE]
          1   28.   REPUBLICAN SENATOR 2 [NO RACE]

            For Districts with No Running Incumbents:

              30.   THIRD PARTY OR INDEPENDENT HOUSE CANDIDATE
         30   31.   DEMOCRATIC CANDIDATE
         44   32.   REPUBLICAN CANDIDATE
              41.   "RETIRING" DEMOCRATIC HOUSE INCUMBENT
              42.   "RETIRING" REPUBLICAN HOUSE INCUMBENT
```

```
            For Districts with Running Incumbent Representative:

        Q.B11.   (RB, P. 2)  I'd like to get your feelings toward
        some of our political leaders and other people who have been
        in the news.

        I'll read the name of a person and I'd like you to rate that
        person using something called the feeling thermometer.  You
        can choose any number between 0 and 100.  The higher the
        number, the warmer or more favorable you feel toward that
        person; the lower the number, the colder or less favorable.
        You would rate the person at the 50 degree mark if you feel
        neither warm nor cold toward them.  If we come to a person
        whose name you don't recognize, you don't need to rate that
        person.  Just tell me and we'll move on to the next one. Our
        first person is Bill Clinton.  Using the thermometer, how
        would you rate Bill Clinton?

        PROBE FOR "I DON'T KNOW" RESPONSE:  When you say "don't
        know" do you mean that you don't know who the person is, or
        do you have something else in mind?

        Q.B11a.  BILL CLINTON

            Q.H5.    (RB, P. 5) We hear a lot of talk these days about
            liberals and conservatives.  Here is a seven-point scale on
            which the political views that people might hold are
            arranged from extremely liberal to extremely conservative.

            Q.H5a.   Where would you place yourself on this scale, or
            haven't you thought much about this?
```

```
              -------------------------------------------------------------

            25   1.   EXTREMELY LIBERAL
           113   2.   LIBERAL
           138   3.   SLIGHTLY LIBERAL
           476   4.   MODERATE; MIDDLE OF THE ROAD

              Q.K2.    (RB, P. 10)  (Turn to page 10 of the booklet)
              Recently there has been a lot of talk about women's rights.
              Some people feel that women should have an equal role with
              men in running business, industry, and government.  Suppose
              these people are at one end of a scale, at point 1.  Others
              feel that a woman's place is in the home.  Suppose these
              people are at the other end, at point 7.  And, of course,
              some other people have opinions somewhere in between at
              points 2, 3, 4, 5, or 6.

              Q.K2a.   Where would you place yourself on this scale, or
              haven't you thought much about this?
              ------------------------------------------------------------

Q.K9.   (RB, P. 15) (Looking at page 15 of the booklet)
There is much concern about the rapid rise in medical and
hospital costs. Some people feel there should be a
government insurance plan which would cover all medical
expenses for everyone. Others feel that all medical
expenses should be paid by individuals, and through private
insurance plans like Blue Cross or other company paid plans.

              MISSING GE 8

              Q.M6.    (RB, P. 17) (Looking at page 17 of the booklet)
              Which of the following views comes closest to your opinion
              on the issue of school prayer?  Just give me the number of
              your choice.
              ------------------------------------------------------------

          193  1.  BY LAW, PRAYERS SHOULD NOT BE ALLOWED IN PUBLIC
                   SCHOOLS.
          939  2.  THE LAW SHOULD ALLOW PUBLIC SCHOOLS TO SCHEDULE TIME
                   WHEN CHILDREN CAN PRAY SILENTLY IF THEY WANT TO.

          415  3.  THE LAW SHOULD ALLOW PUBLIC SCHOOLS TO SCHEDULE TIME
                   WHEN CHILDREN, AS A GROUP, CAN SAY A GENERAL PRAYER
                   NOT TIED TO A PARTICULAR RELIGIOUS FAITH.
          169  4.  BY LAW, PUBLIC SCHOOLS SHOULD SCHEDULE A TIME WHEN
                   ALL CHILDREN WOULD SAY A CHOSEN CHRISTIAN PRAYER.
           37  7.  OTHER, SPECIFY:

              MISSING GE 8

              Q.P5.    (RB, P. 21)  (Please turn to page 21 in the
              booklet) In past studies we have asked people why they think
              white people seem to get more of the good things in life in
              America--such as better jobs and more money--than black

              people do.  These are some of the reasons given by both
              blacks and whites.  Please tell me r disagree with each
              reason as to wgree or disagree with each reason as to wgree
              or disagree wit h each reason as to wgree or disagree wit
              life.

              The first statement is... (PROBE AS NECESSARY:  Do you agree
              strongly, agree somewhat, neither agree nor disagree,
              disagree somewhat, or disagree strongly with this
              statement?)

              Q.P5a.    Over the past few years, blacks have gotten less
              than they deserve.

                PRE-ELECTION FORM-SAMPLE INDICATOR
                ---------------------------------

                There were two forms for both the pre-election and post-
                election questionnaires.  One, the "long questionnaire" was
                the standard form designed to be used for all face-to-face
                interviews.  The other, the "short questionnaire" was a
                truncated version of the questionnaire which was designed
                solely to interview over the phone panel respondents from
                AMERICAN NATIONAL ELECTION STUDY, 1992: PRE- AND POST-
                ELECTION SURVEY [ENHANCED WITH 1990 AND 1991 DATA] (ICPSR
                6067) who since 1990 had moved to areas where SRC no longer
                had interviewers. The short version of the instrument
                should not have been used with 1992 cross-section cases
                (1994 panel cases); however, 1 case was administered using
                this short questionnaire in error (code 4). These problems
                of administration are described in the introduction and in
                Technical Report #43, available from NES Project Staff.
                The Spanish Language short questionnaire was administered
                to panel respondents who were unable to be interviewed in
                English.

==============================
VAR 923012   92PRE:3-DIGIT PRIMARY AREA
               COLUMNS 1178 - 1180
               NUMERIC
               MISSING 0

               PRIMARY AREA CODE (3 digits)

               This is a 3-digit variable. The first digit indicates
               that the sample point comes from the 1992 panel. The
               last 2 digits denote the primary area. For information
               on sample design please see: "Sample Design of the 1992
               Pre- and Post-Election Study" in the Appendix of this
               documentation.

               PRIMARY AREAS in alphabetic order:

              -------------

              This variable identifies the four major geographic regions
              on which the sample was stratified for the purpose of sample
              selection.  (See Sampling Information in the Appendix.)

       123   1.  Northeast (Connecticut, Massachusetts, New
                  Hampshire, New Jersey, New York, Pennsylvania)
       218   2.  North Central (Illinois, Indiana, Iowa, Kansas,
                  Michigan, Minnesota, Missouri, Nebraska, Ohio,
```

```
                                    Wisconsin)
          276    3.   South (Alabama, Arkansas, Delaware, District of
                      Columbia, Florida, Georgia, Louisianna, Maryland,
                      North Carolina, Tennessee, Texas, Virginia, West
                      Virginia)
          142    4.   West (Arizona, California, Colorado, Oregon,
                      Washington, Wyoming)

VAR 923019     92PRE:1992 CONG DISTRICT
               COLUMNS 1213 - 1214
               NUMERIC
               MISSING 0

               1992 CONGRESSIONAL DISTRICT NUMBER (2 digits)
               ---------------------------------------------

               This is a two-digit variable which, when combined with
               either the FIPS State Code (v3018) or the ICPSR State Code
               (v3017), gives the congressional district for the sample
               location in which the R resided at the time of our initial
               interview with him/her in 1992 (for 1994 panel respondents).
               This variable reflects the redistricting based on the 1990
               Census, in effect for the 1992 General Election.
               Variable 5001 records the ICPSR state and district where
               R voted if different from the congressional district of
               their sample address.

               Actual values are coded, as documented in v3016, except:
                   98.  At-large
                   00.  INAP, 1994 cross section

==============================

               NUMERIC
               MISSING 0

               1990 CONGRESSIONAL DISTRICT NUMBER
               ----------------------------------

               For panel respondents, this variable identifies the
               congressional district number for the sample location in
               which R resides, as it was prior to the 1990 Census-based
               redistricting.
```

VAR 923021    92PRE:TYPE RACE HOUSE
              COLUMNS 1217 - 1218
              NUMERIC
              MISSING 0

              TYPE OF RACE:  HOUSE OF REPRESENTATIVES
              ----------------------------------------

              The term incumbent as used in an election held just after
              redistricting requires some definition.  An incumbent, as we
              use the term here and throughout the study, is a person who
              was in the 102nd Congress, just preceding this election.
              The incumbent may or may not have represented the particular
              piece of geography which is the sample segment in which the
              R was interviewed.  That is, the incumbent may or may not
              have been R's representative in the preceding Congress.  All
              incumbent related variables in the study should be used with
              this caution in mind. See also V7000.

              Listed here are the House races present in the 1992 sample.

              SEE APPENDIX NOTE

              INCUMBENT                              CANDIDATE(S)

          366   12.  Democratic incumbent running -- Republican

                     challenger
            9   14.  "           "           "      -- Unopposed

          179   21.  Republican incumbent running -- Democratic
                     challenger
           14   24.  "           "           "      -- Unopposed

           23   45.  Two Republican incumbents running (LA06)

              The November 3rd election for the House of Representatives
              in Louisiana is really a primary run-off for the state.
              Congressional district 06 (LA06), a "new district," fielded
              candidates Richard H. Baker and Clyde C. Holloway, both of
              whom are Republicans and incumbents from old districts.  In
              other circumstances, both would have been assigned #34 in
              the candidate list.  In order to avoid restructuring the
              questionnaire, the House race in LA06 was treated as an open
              race with Baker #31 and Holloway #32.  Code 45 in 3021
              should be used to exclude these cases from analysis
              pertaining to Democratic candidates.

                  51.  Democratic incumb. not running -- Dem. candidate
                       unopposed
                  52.  "           "      "   "        -- Rep. candidate
                       unopposed
           87   55.  "           "      "   "        -- Dem. & Rep.
```

              PRE-ELECTION SAMPLE RELEASES AND REPLICATES
              -------------------------------------------

              In order that analyses of respondents' reactions to the
              campaigns not be confounded with ease or difficulty of
              contacting respondents and persuading them to be
```

interviewed, NES has, since 1984, followed a strategy of
releasing Pre-election sample in stages. In 1984 and 1988,
there were four two-week target periods. In 1992, because
the sample design was unusually complicated, and quartering
the sample would have resulted in cost inefficiencies, we
released panel and cross-section sample in four week target
periods. The assignment of sample lines to target periods
was random. The sets of assigned lines are known as
"replicates."   The first replicate (55% of the sample
thought to be necessary if response and eligibility rates
were as estimated) was released on September 1st, the second
(45%) on October 1st.

Three replicates were designated as "reserve" to release as
needed, depending on an evaluation of sample performance as

of September 30th. At that time, it was decided to release
Reserve Replicates 4 and 5 on October 1st along with
replicate 2. (Although Reserve Replicate 3 was not
released, 12 respondents were interviewed from that
replicate, in error.)

```
 402   1.  Replicate 1, Released Sept.1st.
 307   2.  Replicate 2, Released Oct.1st.
   2   3.  Reserve Replicate 3, Not officially released [IWs
           conducted in error]
  27   4.  Reserve Replicate 4, Released Oct. 1st.
  21   5.  Reserve Replicate 5, Released Oct. 1st.

PRE-ELECTION SAMPLE RELEASE -- SUMMARY

The interviewing time for the Pre-election, Sept. 1 to Nov.
2, was divided into 2 periods: Sept. 1 - Sept. 30, to
interview the first replicate; and Oct. 1 - Nov. 2, for
subsequent replicates. This variable summarizes information
on the time frame for the release of each replicate and the
time of actual completion of the interview.

```
 327   1.  Sample released Sept. 1, interview completed before
           Oct. 1
  75   2.  Sample released Sept. 1, interview completed between
           Oct. 1 - Nov. 2
 355   3.  Sample released Oct. 1, interview completed between
           Oct. 1 - Nov. 2
   2   4.  Sample intended to be released Oct. 1, but by error
           released and interview completed before Oct. 1

               PRE-ELECTION: MODE OF INTERVIEW: TELEPHONE OR PERSONAL
               ------------------------------------------------------

               The study design called for face-to-face interviews for all
               respondents except for a few panel respondents who had moved
               out of the range of SRC interviewers. See v3071 for coding
               of whether the respondents were in range or not. A
               SHORT-FORM or abbreviated questionnaire (both English and
               Spanish) was prepared to use with these respondents over the
               phone. See v3011 which records use of short-form versus
               long-form questionnaires.  Telephone interviews were in fact
               taken with a number of cross- section respondents and a
               number of 1992 panel respondents who had not moved out of
               range. This situation is fully described in the
               introduction and in Technical Report #43, avaialble
               from NES Project Staff.

            716   1.  Personal (face-to-face)

VAR 923063    92PRE:FIPS SMSA CODE
              COLUMNS 1281 - 1284
              NUMERIC
              MISSING 0

              FIPS 1980 SMSA CODE
              -------------------

              These FIPS SMSA codes were obtained from the Federal
              Information Processing Standard Publication, U.S. Department
```

of Commerce, National Bureau of Standards.

The 1980 SMSA Codes have for the most part been carried over
by the Office of Management and Budget (OMB) to the 1990
Metropolitan Statistical Areas (MSA's). However, some MSA
names and definitions have been modified by OMB to reflect
shifts in population and changes in characteristics of
areas. In the 1992 NES data, the 1980 SMSA codes have been
retained for all parts of the MSA primary sampling units
(PSU's). It should be remembered that, particularly in the
case of PMSAs (which are part of consolidated areas (or
CMSAs) some counties or county parts may in 1990 be defined
by OMB as part of a different PMSA (a good example is
Chicago, IL). It was felt that for NES analysis, to retain
the older SMSA codes, which correspond to the 1980 sampling
frame used for this sample, was most appropriate for all MSA
or PMSA areas.

In those areas designated "Non-SMSA" in our sample frame
("Non-MSA" on most of our documentation for 1992 NES), there
are two PSUs (#64, Gardner, MA, and #82, El Dorado/Alpine,
CA) in which some of the 1980 rural area has in 1990 met the
requirements for inclusion in an MSA; in these cases the
size of place code was modified to reflect this and the 1990
MSA number is indicated for the affected segments (Core
segment 009 in Gardner, MA, where Barre town--not associated
with any SMSA in 1980--is now a part of the 1990 Worchester,
MA, MSA, and all of the NES segments in El Dorado/Alpine,
CA,-- i.e., core segments 001 and 007 and panel segments
002, 003, 005, 007, 009 and 011-- all in El Dorado county
which is part of the 1990 Sacramento, CA, MSA.)

VAR 923065     92PRE:SIZE OF PLACE
               COLUMNS 1287 - 1288
               NUMERIC
               MISSING 0

               SIZE OF PLACE OF INTERVIEW - 1990
               --------------------------------

               Coded according to the 1990 Census.  The major objective of
               the Census Bureau in delineating urbanized areas is to
               provide a better separation of urban and rural population in
               the vicinity of large cities.  An urbanized area consists of
               a central city or cities, and surrounding closely settled
               territory ("urban fringe").  Size of Place codes 21 and 41
               include areas that are in the "urban fringe" but are not
               Census Places.

               For the six largest CMSAs plus twelve of the fifteen next
               largest CMSA/MSAs (i.e., those coded 1 or 3 (possibly 5,
               rarely 6) on the Belt Code):

            102    11.   Central Cities (these would have been coded 1 on
                          the Belt Code).

               Suburbs of the six largest CMSAs and twelve of the fifteen
               next largest CMSA/MSAs (coded 3 (sometimes 5 and rarely 6)
               on Belt Code):

             17    20.   Rural (including rural places with less than 2500
                          population)
             46    21.   2,500-9,999 plus other urbanized areas ("urban
                          fringe" not in Census places)
             63    22.   10,000-29,999
             14    23.   30,000-49,999
             68    24.   50,000-99,999
              6    25.   100,000-149,999
                   26.   150,000-349,999
                   27.   350,000 and over, exclusive of cities coded 11

               CMSA/MSAs with less than 2,000,000 population (exclusive of
               those in the six largest CMSAs and 12 of 15 next largest
               CMSA/MSAs)

               Central Cities in CMSA/MSAs with less than 2,000,000
               population (coded 2 on Belt Code):

             15    30.   Under 50,000 (identified by OMB in 1990 as Central

                          Cities)
             21    31.   50,000-99,999
```

```
     12   32.  100,000-149,000
     21   33.  150,000-349,999
     42   34.  350,000 and over

          Suburbs in CMSA/MSAs with less than 2,000,000 population
          (coded 4 (or 5 and rarely 6) on Belt Code):

     40   40.  Rural (including rural places with less than 2,500
                 population)
     62   41.  2,500-9,999 plus other urbanized areas ("urban
                 fringe" not  in Census Places)
     11   42.  10,000-29,999
      8   43.  30,000-49,999
          44.  50,000-99,999
     21   45.  100,000-149,999
          46.  150,000 and over

          "NON-CMSA/PMSA/MSAs"*   Population of place, within these
          "non-SMSA" areas, as reported in 1990 Census.

    122   50.  Rural (including places with less than 2,500
                 population)
     25   51.  2,500-9,999
     37   52.  10,000-29,999
      6   53.  30,000-49,999
```

* In a few cases, Non-MSA PSUs (based on the 1980 OMB SMSA definitions) contain areas which are now part of a 1990 PMSA or MSA (based on the June 1990 OMB definition). In these cases, the Size of Place Code for any SSUs (segments) within such areas are coded in the "40s" rather than in the "50s" as shown below. This occurred in El Dorado county, CA (the major part of the El Dorado/Alpine Co, CA PSU #82) which is now a part of the Sacramento, CA, MSA, and also for one SSU (segment) in the Gardner, MA (PSU #64) which is now a part of the Worchester, MA, MSA.

VAR 923073    92PRE:SEL TABLE
              COLUMNS 1303 - 1304
              NUMERIC
              MISSING 0

              PRE-ELECTION, 1992 CROSS SECTION/1994 PANEL: SELECTION TABLE
              -----------------------------------------------------------

              The Selection Table is used to select a respondent from all
              household members who are eligible adults.  (An eligible
              adult is a U.S. citizen who is 18 years of age or older by
              Election Day.)  The Selection Table appears on the
              Coversheet below the Household Listing.

              After a complete listing of the HH is taken, each eligible
              adult is assigned a "Number" based on the criteria of gender
              and age [beginning with the oldest male as number 1, males
              are numbered by increments of 1 according to descending age;
              females are numbered by descending age starting with the
              number one higher than that assigned to the youngest male].
              The interviewer then uses the Selection Table to determine
              the "Number" of the eligible adult to be interviewed.

              The Selection Table itself consists of 2 parallel columns.
              In the first column the interviewer circles the total number
              of eligible adults in the household; in the second column
              (same row) is identified the "Number" of the person who will
              be the respondent.  Below is an example of what one
              Selection Table looks like [Table A]:

                  SELECTION TABLE A

                  If the number    Interview
                  of eligible      the person
                  persons is:      numbered:
```

```
             1                 1
             2                 1
             3                 1
             4                 1
             5                 1
             6 or more         1
```

There are 8 different Selection Tables used and they are
randomly assigned. [Note that although only 8 tables are
used, there are 12 codes in this variable because the 8
tables are used in cycles of 12; this procedure is used to
equalize the probability of selection for each eligible
adult]. A summary describing all 8 Selection Tables appears
below.

```

               COMPOSITION CODE
               --------------------------------------------------------

               The HH composition code is derived from information provided
               in the household listing.  "Adults" are 18 years of age (by
               election day) or older; all individuals included in the HH
               composition codes below refer to adults.
```

A designation of a HH member as "the householder" (HHR)
describes HU member who owns or rents the home (in whose
name the lease is held). Cohabiting couples are coded as
married (30,40, 50-52). Roommates of opposite sex are coded
11,12,21,22; in all cases of unrelated roommates the
respondent is HHR.

See Note at 3072.

```
 79   10.  1 adult male HHR
  4   11.  1 adult male HHR plus 1 other non-relative
  3   12.  1 adult male HHR plus 2 or more non-relatives
144   20.  1 adult female HHR
  7   21.  1 adult female HHR plus 1 other non-relative
  1   22.  1 adult female HHR plus 2 or more non-relatives
390   30.  1 married couple: no children or all children
               living at home are under 18

 53   40.  1 married couple plus 1 other relative
 24   50.  1 married couple plus 2 or more other relatives
  3   51.  1 married couple plus 1 other non-relative
  1   52.  1 married couple plus 2 or more non-relatives
  9   60.  1 unmarried male HHR plus 1 other relative
  2   70.  1 unmarried male HHR plus 2 or more other relatives
 27   80.  1 unmarried female HHR plus 1 other relative
 11   90.  1 unmarried female HHR plus 2 or more other
               relatives

```

PRE-ELECTION: HOUSEHOLD DESCRIPTION FOR 1992 PANEL
RESPONDENTS

This variable was built using: (1) questions Y55-Y56d for
information about R's children and children for which R
is responsible living with R at least half time; and (2)
the household composition variable (3077) and marital
status variable (Y2) for information about other adults.
For panel cases, codes 10 and 11 correspond to 10 and 20
in 3077 (HH composition), codes 20 and 21 correspond to
1 and 7 in Y2 (marital status), and codes 30-31
correspond to cases in the non-married categories of
Y2 (marital status) and not 10 nor 20 in CS15 (HH
composition). Note, however, that six cases [IDs
39,92,224,359,599,704] coded 10 or 20 in the HH composition
were actually cases of married Rs (spouse in nursing home,
spouse living away due to work requirements, spouse in
service), and these cases are included in codes 20-21 here.

In all cases coded 20-21, adults other than R and spouse may
also be in household.

```
            164   10.  One adult (R), no children
             48   11.  One adult (R), child/ren

            209   20.  Married/partnered couple including R, no children
            214   21.  Married/partnered couple including R, child/ren

             81   30.  2 or more adults (R not married), no children
             18   31.  2 or more adults (R not married), child/ren

             23   99.  NA

              NUMERIC
              MISSING GE 888

              D2.  (RB, P.3) I'd like to get your feelings toward some of
              our political leaders and other people who are in the news
              these days.

              I'll read the name of a person and I'd like you to rate that
              person using something we call the feeling thermometer.
              Ratings between 50 degrees and 100 degrees mean that you
              feel favorable and warm toward the person.

              Ratings between 0 degrees and 50 degrees mean that you don't
```

```
            feel favorable toward the person and that you don't care too
            much for that person.

            You would rate the person at the 50 degree mark if you don't
            feel particularly warm or cold toward the person.  If we
            come to a person whose name you don't recognize, you don't
            need to rate that person.  Just tell me and we'll move on to
            the next one.

            Our first person is George Bush.  How would you rate him
            using the thermometer?

            PROBE FOR "I DON'T KNOW" RESPONSE:  When you say "don't
            know" do you mean that you don't know who the person is, or
            do you have something else in mind?

            D2a.  GEORGE BUSH <Feeling Thermometer>

              G5.  (RB, P. 7) Some people say that there are certain
              qualities that make a person a true American. Others say
              that there isn't anything that makes one person more
              American than another.  I'm going to read some of the things

              that have been mentioned. For each of the following, tell me
              how important you think it is in making someone a true
              American -- extremely important, very (important), somewhat
              (important), or not at all important.

VAR 923611    92PRE:J10.INTERVIEWER CHECKPOINT
              COLUMNS 1725 - 1725
              NUMERIC
              MISSING 0

              NOTE: J10-J11b presented difficult problems for interviewers
              and respondents alike.  The intended reference was the
              incumbent of the 102nd Congress running for re-election as
              the district was constituted for the 103 rd Congress.  Thus,
              many respondents were asked to evaluate the performance of
              an incumbent who was not their Representative in the 102nd
              Congress.  Second, primaries were not held in FL, AZ, CT,NH,
              LA, MA MN NY, WA, WI until after the start of interviewing

              on September 1, so in many cases names of candidates were
              not decided at the start of interviewing.  The candidate
              names were given to interviewers as soon as they became
              available.

              1991 Political Consequences of War Study (ICPSR #9673)

              Good Effects
```

```
28   11.  National Unity--united the country; showed we can
          pull together in a crisis/will support our troops
          in war
17   12.  National Confidence--raised our self-
          esteem/self-confidence; showed we are willing to
          stand up for ourselves/not willing to be pushed
          around; put to rest the self-doubts/bad feelings
          over the Viet Nam war.
32   13.  Patriotism--increased pride in the nation/flag;
          made people proud to be American
 1   14.  Made people (more) aware of international
          situation(s)
 3   16.  U.S. Troops--low U.S. casualties; brought soldiers
          back safely; troops performed well; good leaders
          emerged during the war
 2   17.  The Military--raised the morale/pride of our armed
          forces; increased respect for the
          military/veterans; gave the Viet Nam veterans the
          approval/recognition they deserve
11   18.  Military Victory--we won; proved we are capable of
          winning a war; showed that we could go into a war
          to win; demonstrated that we could win a war
          quickly/with minimum casualties
20   19.  Military Capability--successfully tested our
          military capability; proved our high technology
          weapons would work; proved that a volunteer army
          could fight/defend the U.S.; raised confidence in
          our defense systems/ program; gave us experience in
          fighting against Soviet equipment/strategies;
          gained experience in mobilization and deployment of
          military forces.
79   21.  Respect--other nations have more respect for us; it
          made the U.S. well-liked; demonstrated U.S.
          leadership in the world; showed the world that we
          are powerful; strengthened our position in the
          world; will make other                  countries
          think twice before tangling with us
24   22.  Resolution--showed we are willing to back up our
          words with actions/that we mean what we say/that we
          keep our promises
42   23.  New World Order--showed we will stand up to
          aggression/will protect our interests/are willing

          to fight for what is right; shows we will protect
          weaker countries from aggression by big
          countries/that we will defend freedom and democracy
          throughout the world; brought the U.S. recognition
          as a peace-keeping nation/force; might deter other
          dictators from trying the same thing in the future;
          increased the chances/ opportunity for world peace
14   24.  Collective Security--proved that the nations of the
          world could work together for the good of mankind;
          strengthened the United Nations as a force for
          peace
     25.  Contributed to ending cold war/breakup of Soviet
          Union/stopping spread of communism; improved
          relations with Russia
 9   31.  U.S. Economy--strengthened/helped the economy;

          down/ jobs opened up
```

```
 50  32.  Oil--secured our oil supply; we can get the oil we
              need/more oil now; lowered the price of
              oil/gasoline; kept Saddam Hussein from taking
              control of the world's oil supply
  8  41.  Mideast Stability--increased the
              stability/prospects for peace in the mideast.
 16  42.  Relations with Mideast Nations--improved our
              relations with Israel/Arab countries/Gulf states
 13  43.  Kuwait--helped/liberated Kuwait; drove Iraq/Saddam
              Hussein from Kuwait
 33  44.  Iraq--defeated Iraq; destroyed Saddam Hussein's
              military strength/ability to make nuclear or
              biological weapons; stopped Iraq/Saddam Hussein
              from taking over other countries; cut Iraq/Saddam
              Hussein down to size
 10  49.  Other Good Effects

                      stand up for ourselves/not willing to be pushed
                      around; put to rest the self-doubts/bad feelings
                      over the Viet Nam war.
         2   13.   Patriotism--increased pride in the nation/flag;
                      made people proud to be American
               14.   Made people (more) aware of international
                      situation(s)
         1   16.   U.S. Troops--low U.S. casualties; brought soldiers
                      back safely; troops performed well; good leaders
                      emerged during the war
         1   17.   The Military--raised the morale/pride of our armed

                      forces; increased respect for the
                      military/veterans; gave the Viet Nam veterans the
                      approval/recognition they deserve
         1   18.   Military Victory--we won; proved we are capable of

winning a war; showed that we could go into a war
to win; demonstrated that we could win a war
quickly/with minimum casualties

1   19.   Military Capability--successfully tested our
military capability; proved our high technology
weapons would work; proved that a volunteer army
could fight/defend the U.S.; raised confidence in
our defense systems/ program; gave us experience in
fighting against Soviet equipment/strategies;
gained experience in mobilization and deployment of
military forces.

2   21.   Respect--other nations have more respect for us; it
made the U.S. well-liked; demonstrated U.S.
leadership in the world; showed the world that we
are powerful; strengthened our position in the
world; will make other   countries
think twice before tangling with us

4   22.   Resolution--showed we are willing to back up our
words with actions/that we mean what we say/that we
keep our promises

5   23.   New World Order--showed we will stand up to
aggression/will protect our interests/are willing
to fight for what is right; shows we will protect
weaker countries from aggression by big
countries/that we will defend freedom and democracy
throughout the world; brought the U.S. recognition
as a peace-keeping nation/force; might deter other
dictators from trying the same thing in the future;
increased the chances/ opportunity for world peace

1   24.   Collective Security--proved that the nations of the
world could work together for the good of mankind;
strengthened the United Nations as a force for
peace

1   25.   Contributed to ending cold war/breakup of Soviet
Union/stopping spread of communism; improved
relations with Russia

4   31.   U.S. Economy--strengthened/helped the economy;

down/ jobs opened up

3   32.   Oil--secured our oil supply; we can get the oil we
need/more oil now; lowered the price of
oil/gasoline; kept Saddam Hussein from taking
control of the world's oil supply

2   41.   Mideast Stability--increased the
stability/prospects for peace in the mideast.

2   42.   Relations with Mideast Nations--improved our
relations with Israel/Arab countries/Gulf states

4   43.   Kuwait--helped/liberated Kuwait; drove Iraq/Saddam
Hussein from Kuwait

2   44.   Iraq--defeated Iraq; destroyed Saddam Hussein's
military strength/ability to make nuclear or
biological weapons; stopped Iraq/Saddam Hussein
from taking over other countries; cut Iraq/Saddam
Hussein down to size

1   49.   Other Good Effects

                      of U.S. to the world/in poor countries/in the
                      mideast; lost us the respect of other nations;
                      generated ill will/made enemies for us in other
                      countries
           11   52.  Aggressor Nation--gives us the image of being an

                      aggressor/warmonger nation; makes us appear willing
                      to fight for pay for anyone who has the money;
                      makes it easier for us to use force again when
                      faced with an international problem; might make us
                      overconfident in our ability to get our way by use
                      of force
            3   53.  International Policeman--made ourselves the
                      international policeman; obligated ourselves to
                      give military protection to all/other (small)
                      countries
            3   61.  Foreign Deaths--a lot of innocent people in the
                      mideast were killed, displaced or wounded; deaths
                      in Israel from missile attacks; Iraqis killed
                      during and after the war
            7   62.  Environmental Damage--burning oil wells polluting
                      the air; oil released into the Gulf polluting water
                      and beaches; damage done to wild fowl and sealife
            2   63.  War Damage--damage done to countries in the
                      mideast; we will have to pay for/be responsible for
                      cleaning up the damage done to Iraq/Kuwait/Israel
                      during the war
            2   64.  Deepened Our Involvement--we are now more deeply
                      involved in the politics of the mideast/in the
                      Arab-Israeli problem
           11   71.  Hurt the U.S. Economy--caused a recession; people
```

```
               lost their jobs/can't find jobs
    4    72.  Energy Costs--increased the cost of oil/gasoline;
               didn't lower/change the cost of oil/gasoline; will

               world/destroyed oil wells
         73.  Oil Dependency--increased our dependence on
               (mideast) oil for energy; made us less willing to
               develop other sources of energy
   61    74.  Financial Cost--we spent a lot of money; lost a lot
               of supplies/armaments/equipment; need to raise
               taxes to pay for the war; increased our national
               debt
    2    75.  Neglected Domestic Needs--money diverted from
               domestic programs/needs in order to finance the war
         76.  Defense Spending--will encourage increased spending
               on defense; will lessen pressure to cut defense
               spending
    8    77.  Effect on U.S. Civilians--disrupted the lives of
               people called into the service/sent overseas;
               caused hardship for families of reservists called
               to active duty; created stress/emotional problems
               for children
   11    78.  Effect on U.S. Soldiers-- emotional/psychological
               problems caused by combat; medical

               problems/diseases contracted while in the Gulf;
               sexual assaults suffered by female soldiers
    1    79.  Bad effect on U.S. morale or character; caused
               internal divisions and/or unrest; nationalistic
               frenzy; distorted national goals and priorities;
               caused U.S. to do bad or immoral things
    2    80.  Military conduct of war was bad/doesn't reflect
               favorably on U.S.; American soldiers being killed
               by own forces; weapons that didn't work (properly);
               bad or botched military strategy
   99    81.  Left Saddam in Power--didn't get rid of/punish
               Saddam Hussein; didn't finish the job
    2    82.  Kuwait Not a Democracy--failure of Kuwait to
               establish a democratic government;
               repression/injustice being committed in Kuwait
               since the end of the war
    1    83.  Failed Rebellion--we encouraged Iraqis to rebel
               against Saddam Hussein then didn't support
               them/left them to fight alone; Kurdish refugee
               problem--all mentions
         84.  Troops Still in Iraq--we still have forces in Iraq;
               the war is not over yet
    1    85.  "Iraqgate"--all mentions of selling arms to/failing
               to restrain Iraq; diminished support for Gulf War/
               confidence in government because of "Iraqgate"
               events
    3    86.  Doubts about having been told the truth about the
               conduct of the war/goals of the war; skepticism
               about motives for going to war (e.g., political
               play, gain economic advantages, protect oil supply)

       Miscellaneous Responses (Use for both F9a and F10a)

   10    87.  Solved No Problems--didn't resolve any of the
               problem in the mideast; didn't cause the countries
```

```
                              in the mideast to unite/get along better; didn't
                              bring peace to the mideast
         13   88.  Didn't Accomplish Anything (NFS)--everything about
                   the war was bad; nothing good came from the war;
                   nothing (good) was accomplished

          7   89.  Other Bad Effects
          2   95.  Nothing that I can pinpoint/think of right now
                   (ONLY answer given by R)
              96.  I can't explain it/put it into words (ONLY answer
                   given by R)
          4   97.  Other Miscellaneous Response

              98.  DK; haven't really thought about it (first mention

                   only)
          5   99.  NA; refused; R only mentions loss of American
                   lives/people losing loved ones in the war (first
                   mention only)
       1491   00.  Inap, 3-4, 6-7 in V3011; 5, 8-9 in J14; no further

              J14a(2). What did you have in mind? <Regarding Bad Effects
              of the Persian Gulf War on the U.S.> (5 MENTIONS) <Second
              mention>

              NOTE: This code has been updated from the one used for the
              1991 Political Consequences of War Study (ICPSR #9673) 5
              mentions.

              Bad Effects

          5   51. Tarnished U.S. Image (NFS)--projected a bad image
                   of U.S. to the world/in poor countries/in the
                   mideast; lost us the respect of other nations;
                   generated ill will/made enemies for us in other
                   countries
          4   52. Aggressor Nation--gives us the image of being an
                   aggressor/warmonger nation; makes us appear willing
                   to fight for pay for anyone who has the money;
                   makes it easier for us to use force again when
                   faced with an international problem; might make us
                   overconfident in our ability to get our way by use
                   of force
          1   53. International Policeman--made ourselves the
                   international policeman; obligated ourselves to
                   give military protection to all/other (small)
                   countries
          2   61. Foreign Deaths--a lot of innocent people in the
                   mideast were killed, displaced or wounded; deaths
                   in Israel from missile attacks; Iraqis killed
                   during and after the war
          2   62. Environmental Damage--burning oil wells polluting

```

the air; oil released into the Gulf polluting water

and beaches; damage done to wild fowl and sealife

1  63. War Damage--damage done to countries in the
       mideast; we will have to pay for/be responsible for
       cleaning up the damage done to Iraq/Kuwait/Israel
       during the war

   64. Deepened Our Involvement--we are now more deeply
       involved in the politics of the mideast/in the
       Arab-Israeli problem

4  71. Hurt the U.S. Economy--caused a recession; people
       lost their jobs/can't find jobs

   72. Energy Costs--increased the cost of oil/gasoline;
       didn't lower/change the cost of oil/gasoline; will

       world/destroyed oil wells

   73. Oil Dependency--increased our dependence on
       (mideast) oil for energy; made us less willing to
       develop other sources of energy

14 74. Financial Cost--we spent a lot of money; lost a lot
       of supplies/armaments/equipment; need to raise
       taxes to pay for the war; increased our national
       debt

3  75. Neglected Domestic Needs--money diverted from
       domestic programs/needs in order to finance the war

   76. Defense Spending--will encourage increased spending
       on defense; will lessen pressure to cut defense
       spending

2  77. Effect on U.S. Civilians--disrupted the lives of
       people called into the service/sent overseas;
       caused hardship for families of reservists called
       to active duty; created stress/emotional problems
       for children

               J14a(4).  What did you have in mind? <Regarding Bad Effects
               of the Persian Gulf War on the U.S.> (5 MENTIONS) <Fourth
               mention>
               ------------------------------------------------------------

               NOTE:   This code has been updated from the one used for the
               1991 Political Consequences of War Study (ICPSR #9673) 5
               mentions.

               Bad Effects

                   51.  Tarnished U.S. Image (NFS)--projected a bad image

of U.S. to the world/in poor countries/in the
mideast; lost us the respect of other nations;
generated ill will/made enemies for us in other
countries

52. Aggressor Nation--gives us the image of being an
aggressor/warmonger nation; makes us appear willing
to fight for pay for anyone who has the money;
makes it easier for us to use force again when
faced with an international problem; might make us
overconfident in our ability to get our way by use
of force

53. International Policeman--made ourselves the
international policeman; obligated ourselves to
give military protection to all/other (small)
countries

1 61. Foreign Deaths--a lot of innocent people in the
mideast were killed, displaced or wounded; deaths
in Israel from missile attacks; Iraqis killed
during and after the war

62. Environmental Damage--burning oil wells polluting
the air; oil released into the Gulf polluting water
and beaches; damage done to wild fowl and sealife

63. War Damage--damage done to countries in the
mideast; we will have to pay for/be responsible for
cleaning up the damage done to Iraq/Kuwait/Israel
during the war

64. Deepened Our Involvement--we are now more deeply
involved in the politics of the mideast/in the
Arab-Israeli problem

71. Hurt the U.S. Economy--caused a recession; people
lost their jobs/can't find jobs

72. Energy Costs--increased the cost of oil/gasoline;
didn't lower/change the cost of oil/gasoline; will

world/destroyed oil wells

73. Oil Dependency--increased our dependence on
(mideast) oil for energy; made us less willing to
develop other sources of energy

1 74. Financial Cost--we spent a lot of money; lost a lot
of supplies/armaments/equipment; need to raise
taxes to pay for the war; increased our national
debt

75. Neglected Domestic Needs--money diverted from
domestic programs/needs in order to finance the war

76. Defense Spending--will encourage increased spending
on defense; will lessen pressure to cut defense
spending

77. Effect on U.S. Civilians--disrupted the lives of
people called into the service/sent overseas;
caused hardship for families of reservists called
to active duty; created stress/emotional problems
for children

78. Effect on U.S. Soldiers-- emotional/psychological

problems caused by combat; medical
problems/diseases contracted while in the Gulf;
sexual assaults suffered by female soldiers

79. Bad effect on U.S. morale or character; caused
internal divisions and/or unrest; nationalistic

                         frenzy; distorted national goals and priorities;
                         caused U.S. to do bad or immoral things
                80.  Military conduct of war was bad/doesn't reflect
                     favorably on U.S.; American soldiers being killed
                     by own forces; weapons that didn't work (properly);
                     bad or botched military strategy
                81.  Left Saddam in Power--didn't get rid of/punish
                     Saddam Hussein; didn't finish the job
                82.  Kuwait Not a Democracy--failure of Kuwait to
                     establish a democratic government;
                     repression/injustice being committed in Kuwait
                     since the end of the war
                83.  Failed Rebellion--we encouraged Iraqis to rebel
                     against Saddam Hussein then didn't support
                     them/left them to fight alone; Kurdish refugee
                     problem--all mentions
                84.  Troops Still in Iraq--we still have forces in Iraq;
                     the war is not over yet
                85.  "Iraqgate"--all mentions of selling arms to/failing
                     to restrain Iraq; diminished support for Gulf War/
                     confidence in government because of "Iraqgate"
                     events
         1      86.  Doubts about having been told the truth about the
                     conduct of the war/goals of the war; skepticism
                     about motives for going to war (e.g., political
                     play, gain economic advantages, protect oil supply)

              Miscellaneous Responses (Use for both F9a and F10a)

         1      87.  Solved No Problems--didn't resolve any of the
                     problem in the mideast; didn't cause the countries
                     in the mideast to unite/get along better; didn't
                     bring peace to the mideast
         1      88.  Didn't Accomplish Anything (NFS)--everything about
                     the war was bad; nothing good came from the war;
                     nothing (good) was accomplished

              K2.  (RB, P. 12) I am going to read a list of words and
              phrases people may use to describe political figures.  For

              each, tell me whether the word or phrase describes the
              candidate I name.

              Think about George Bush.  In your opinion does the phrase
              "he is intelligent" describe George Bush extremely well,
              quite well, not too well, or not well at all?

              K2a.  INTELLIGENT?

```
          L1.  (RB, P. 13) Some people think the government should
          provide fewer services, even in areas such as health and
          education in order to reduce spending. Suppose these people
          are at one end of the scale at point 1. Other people feel it
          is important for the government to provide many more
          services even if it means an increase in spending.  Suppose
          these people are at the other end, at point 7.  And of
          course, some other people have opinions somewhere in between
          at points 2, 3, 4, 5, or 6.

          L1a.  Where would you place yourself on this scale, or
          haven't you thought much about this?
          -----------------------------------------------------------

      42  1.   GOV'T PROVIDE MANY FEWER SERVICES, REDUCE SPENDING A
               LOT

              NUMERIC
              MISSING 0 OR GE 8

              L19.  (RB, P. 19) There is much discussion about the best
              way to deal with the problem of urban unrest and rioting.
              Some say it is more important to use all available force to
              maintain law and order -- no matter what results.  Others
              say it is more important to correct the problems of poverty
              and unemployment that give rise to the disturbances. And, of
              course, other people have opinions in between.

              L19a.  Where would you place yourself on this scale, or
              haven't you thought much about this?
              ------------------------------------------------------------

              NOTE: Due to a design error, abbreviated telephone (short
              form) and Spanish language questionnaires were produced with
              the L19a scale printed reversed in the text. Because
              interviewers handled this problem in different ways, it was
              impossible to determine which scale position a number given
              by Rs response corresponds.  Therefore, all cases of short
              form or Spanish questionnaires (3,4,6,7 in V3011) have been
              coded 9 (NA) in L19a.

VAR 923850     92PRE:X4z.R RELIGIOUS AFFIL-SUMMARYN
               COLUMNS 1877 - 1879
               NUMERIC
               MISSING 0 OR GE 998

               X4z.  R's Religious Affiliation SUMMARY
               --------------------------------------

               This set of religion codes, which was first used in the NES
               time series in 1990, was developed by a group of scholars
               headed by David Leege of the University of Notre Dame and is
               still in the process of refinement.  A few changes have been
               made since the 1990 version: codes 127 and 133 have been
               combined into code 127 [no 1992 code 133]; code 102 has been
               moved to become code 306 [no 1992 code 102]; and codes 267
               and 261 have been added [new].

               Those interested in comparing 1992 codes to the set of codes
               in use through 1988, please see Addendum B

               Users who wish to understand the inner working of the
               religion section and summary are strongly encouraged to
               examine the questionnaire in the appendix of this codebook
               as well.

               Variable 3850 (X4z) contains the information gathered in
               question X3a,b; X4; X4a-k; X5; X5a and X6a,b.  Information
               collected in open-ended responses (7 in X4a, X4b, X4c, X4d,
               X4e, X4f, X4g, X4h, X4i, X4j; open-ended responses for codes
               18, 19, 21, 31 in X4) have been hand-coded into this summary
```

variable. 1990 data for panel short form cases (3 in V3011)
have been added to this variable (Although 1990 data were
not added to the individual variables from which the summary
was built).

R's with NO RELIGIOUS PREFERENCE OR IDENTIFICATION have in
all past years been included inMISSING data. To maintain
consistency with past practice, such cases appear inMISSING
data code 0 in this variable, but some users may wish to
include these cases as valid data.

GENERAL PROTESTANT

```
25   010.  Protestant, no denomination given

              COLUMNS 1886 - 1887
              NUMERIC
              MISSING 0

              Y1x.  Recoded AGE
              ----------------

              This question was not asked of respondents on the short form
              questionnaire.  For panel short form respondents the data
              for this variable was copied from their 1990 Post-election
              responses.

              This variable was built by subtracting the month and year of
              R's birth from month and year of interview.  For short form
              cross section (4 in V3011) and those cases who refused to
              give us their date of birth, we either transferred here
              their age from the Household Listing in the Cover Sheet
              (cross-section), or we updated their age from 1990 (panel).

                  17.
                       .
                       .
                  90.
                  91.  91 years or older

```
==============================
VAR 923904    92PRE:Y2.R MARITAL STATUS
              COLUMNS 1888 - 1888
              NUMERIC
```

```
         MISSING 0 OR GE 8

         Y2.  Are you married now and living with your
         (husband/wife)-- or are you widowed, divorced, separated, or
         have you never married?
         --------------------------------------------------------------

         NOTE:  Y2 was not asked of panel respondents interviewed
         using the "short form" questionnaire, and their marital
         status from 1990 was copied here.  For 22 cases the 1990
         data were inconsistent with the Y21 CHECKPOINT in 1992,
         alerting us to possible changes in marital status.  Each
         case was reviewed and Y2 was corrected using information

         from the cover sheet, the thumbnail sketch and other
         variables.  Y2 then represents our best estimate of R's
         PRESENT MARITAL STATUS.

         If it is known that R is not currently married/partnered (1
         in Y3c), but R refused to define specific status either as
         never married, divorced, separated or widowed, then code 8
         has been used.

         If spouse is in nursing home or spouse works and lives in
         another city, or if R's family is in the process of moving
         and is temporarily split between two residences, code 1 is
         used.

VAR 924103    92PRE:Y39.INTERVIEWER CHECKPOINT (L)
              COLUMNS 2052 - 2052
              NUMERIC
              MISSING 0

              NES income variables traditionally are administered by
              showing respondents a list of income groups (24 categories
              in all), and asking them which one corresponds to their
              situation.  This procedure cannot be easily duplicated over
              the phone.  Income information from the "long form"
              questionnaire was originally coded in variables 4103-4105.

              Information from the "short form" telephone questionnaire
              was coded in variables 4106-4110.  For the users'
              convenience the information from the "short form" was copied
              into variables 4103-4105.  For a complete layout of the
              income section in each form please see the composite
              questionnaire.

              Y39.  INTERVIEWER CHECKPOINT
              ------------------------------------------------------------

              NOTE: ALTHOUGH THIS IS THE LONG-FORM CHECKPOINT, DATA FROM

              MISSING 0

              POST-ELECTION: MODE OF INTERVIEW TELEPHONE, PERSONAL
              ----------------------------------------------------

              The study design called for face-to-face interviews for all
              respondents except for a few panel respondents who had moved
              out of the range of  SRC interviewers. See v3071 for coding
              of whether the respondents were in range or not. A
              SHORT-FORM or abbreviated questionnaire was prepared to use
              with these respondents over the phone. See v5002 which
              records use of short-form versus long- form questionnaires.
              Telephone interviews were in fact taken with a number of
              cross-section respondents and a number of panel respondents
              who had not moved out of range.  This situation is fully
              described in the introduction, pp. v  and in Technical
              Report #43, available from NES Project Staff.

VAR 925108   92POST:A4.CARE ELECT
              COLUMNS 2242 - 2242
              NUMERIC
              MISSING 0 OR GE 8

              Throughout the post-election questionnaire, whenever the
              term "incumbents" is used in the documentation or
              questionnaire , we are referring to a representative who was
              a member of the 102nd Congress, i.e, prior to the 1992
              General election. Due to the U.S. Census based
              redistricting, the incumbents district for the 103rd

              Congress may consist of a fairly different geographical area
              from the area covered by the district prior to the boundary
              changes. Therefore, the "incumbent" may or may not have
              been the respondent's district's incumbent before 1992.

              An additional complication is that a panel respondent may
              have moved since we interviewed them in 1990, or
              pre-election respondents may have moved between the pre- and
              the post-election interview. Unless stated otherwise survey
              questions always refer to R's original locations.

              A4. As you know, representatives to Congress in Washington
              were chosen in this election from congressional districts
              all around the country. How much would you say that you
              personally cared about the way the election to the U.S.
              House of Representatives came out: did you care very much,
              pretty much, not very much, or not at all?

               B1.  (RB, P. 3) Please turn to page three of this booklet.
               I'd like to get your feelings toward some of our political
               leaders and other people who are in the news these days.
               I'll read the name of a person and I'd like you to rate that
               person using something we call the feeling thermometer.
               Ratings between 50 degrees and 100 degrees mean that you
               feel favorable and warm toward that person.

               Ratings between 0 degrees and 50 degrees mean that you don't
               feel favorable toward the person and that you don't care too
               much for that person.  You would rate the person at the 50
               degree mark if you don't feel particularly warm or cold
```

                toward the person. If we come to a person whose name you
                don't recognize, you don't need to rate that person. Just
                tell me and we'll move on to the next one.

                Our first person is George Bush. How would you rate him
                using the feeling thermometer?

                B1a. GEORGE BUSH

              Next I would like to ask some questions about the
              candidate(s) who ran in this district for the U.S. House of
              Representatives.

              C1.  Was there anything in particular that you liked about
              (NAME # 31, 33, or 35), the Democratic candidate [LA06 only:
              the Republican candidate] for the U.S. House of
              Representatives?
              ------------------------------------------------------------

              For a discussion of the meaning of "this district, " see
              note preceding <at> V5108

              C1-C2a were asked about second Rep. candidate in LA06. See
              LA06 note in V3021.  Use V3021=45 to exclude these cases.

          216  1.  YES
          329  5.  NO Rep.
          164  7.  R VOLUNTEERS: "I DON'T KNOW ANYTHING ABOUT THIS
                       PERSON"

           24  8.  DON'T KNOW
            7  9.  NA
         1055  0.  Inap, no post-interview; no Democratic US House
                       candidate (24, 52 in V3021); 3, 4 in V5002;

               D6x.  CONSIDERATION OF OTHER CANDIDATES--SUMMARY
               ------------------------------------------------

               Built from V5608-5618

          135  10.  R voted for Bush, never considered other (D6d=1,
                        D6e=5, D6f=0)
           27  11.  R voted for Bush, considered Clinton (D6d=1, D6e=1,
                        D6f=1)
           52  12.  R voted for Bush, considered Perot (D6d=1, D6e=1,
                        D6f=2)
            6  13.  R voted for Bush, considered both Clinton and Perot
                        (D6d=1, D6e=1, D6f=3)
          144  20.  R voted for Clinton, never considered other (D6d=2,
                        D6e=5, D6f=0)
           29  21.  R voted for Clinton, considered Bush (D6d=2, D6e=1,
                        D6f=1)
           80  22.  R voted for Clinton, considered Perot (D6d=2,
                        D6e=1, D6f=2)
           10  23.  R voted for Clinton, considered both Bush and Perot
                        (D6d=2, D6e=1, D6f=3)
            1  25.  R voted for Clinton, considered other but DK/NA who
                        (D6d=2, D6e=1, D6f=8/9)
           21  30.  R voted for Perot, never considered other (D6d=3,
                        D6e=5, D6f=0)
           35  31.  R voted for Perot, considered Clinton (D6d=3,
                        D6e=1, D6f=1)
           39  32.  R voted for Perot, considered Bush (D6d=3, D6e=1,
                        D6f=2)

            4  33.  R voted for Perot, considered both Clinton and Bush
                        (D6d=3, D6e=1, D6f=3)
            2  50.  Voted for candidate other than Bush, Clinton or
                        Perot (1 in D6, 7 in D6a)
                55.  Didn't vote for any presidential candidate (1 in
                        D6, 5 in D6a)

            2  98.  NA/DK whether voted for any presidential candidate
                        (8/9 in D6, 0 in D6a)
            7  99.  Voted for a presidential candidate, but NA/DK which
                        one (1 in D6, 8/9 in D6a)
         1201  00.  Inap, no post-interview; did not vote or did not
                        vote for presidential candidate (0,2 in D2c; 0,5 in

              COLUMNS 2575 - 2576
              NUMERIC
              MISSING 0 OR GE 98

              D10a/D12a.  (SENATE VOTE) Who did you vote for?
              -----------------------------------------------

              SEE NOTE D10/D12.

              FOR CALIFORNIA RESIDENTS:  There were two Senate races in
              California, one for a full term, the other for a special

              election to fill an unexpired term.  Vote for the regular
              election is duplicated here.  See D10b1/D12a1 and
              D10b2/D12a2.

              In two cases R voted in CA, outside state of sample address.
              Because there is only one variable for Senate vote for Rs
              not living in California, R's vote in the regular (full
              term) CA Senate election has been coded here.  These two Rs'
              votes in the special CA Senate election are as follow:  post
              case 3718: candidate 84; post case 5360: candidate 85.

              CODES 11-16 IF R VOTED IN STATE OF SAMPLE LOCATION:

         63   11.  Democratic candidate in open Senate race
         31   12.  Republican candidate in open Senate race
         60   13.  Democratic Senate incumbent
         76   14.  Republican Senate incumbent
         55   15.  Democratic Senate challenger
         28   16.  Republican Senate challenger

              E7a.  (RB, P. 5) Which of these statements is closer to your
              opinion on the bad checks:
              -------------------------------------------------------------
          291   1.  Representatives who wrote bad checks acted so
                    dishonestly they should be voted out of office.
          135   2.  Writing bad checks is not a serious enough mistake
                    to disqualify someone for office.
          183   3.  Representatives who wrote only a few bad checks
                    should not be voted out of office just for that
                    reason, but representatives who wrote a lot of bad
                    checks should be voted out of office.

              H3.  Now we have a set of questions concerning various
              public figures.  We want to see how much information about
              them gets out to the public from television, newspapers and
              the like.

              The first name is Dan Quayle.  What job or political office
              does he now hold?

              H3a.  DAN QUAYLE
              -----------------------------------------------------------

                678    1.  Correctly identifies Quayle as the Vice President
                  7    5.  Identification is incomplete or wrong

                 73    8.  DK; makes no attempt to guess
                  1    9.  NA
               1036    0.  Inap, no post interview; 1994 cross section

            M1.  (RB, STILL ON P. 15)  Now I'd like to read some of the
            kinds of things people tell us when we interview them and
            ask you whether you agree or disagree with them.  I'll read
            them one at a time and you just tell me whether you agree or
            disagree.

            M1a.  If people don't care how an election comes out, they
            shouldn't vote in it.

         People have different ideas about the government in
         Washington.  These ideas don't refer to Democrats or
         Republicans in particular, but just to the government in
         general.  We want to see how you feel about these ideas. For
         example:

         M5.  How much of the time do you think you can trust the
         government in Washington to do what is right--just about
         always, most of the time, or only some of the time?
         ------------------------------------------------------------

       17   1.   JUST ABOUT ALWAYS
      195   3.   MOST OF THE TIME
      526   5.   SOME OF THE TIME

               P3.  (RB, P. 18) Now I have some questions about different
               groups in our society.  I'm going to show you a seven-point
               scale on which the characteristics of the people in a group
               can be rated.  In the first statement a score of 1 means
               that you think almost all of the people in that group tend
               to be "hard-working."  A score of 7 means that almost all of
               the people in the group are "lazy."  A score of 4 means that
               you think that most people in the group are not closer to

               one end or the other, and of course you may choose any
               number in between.

               P3a.  Where would you rate whites in general on this scale?
               -------------------------------------------------------------

             75   1.  HARD-WORKING
            152   2.
            201   3.
            251   4.
             40   5.
```

              MISSING 0 OR GE 8

              Q2.  (RB, P. 21) There are several different ideas about how
              to teach children who don't speak English when they enter
              our public schools.  Which one of the following three
```

statements best describe how you feel:
                ----

        258   1. ONE, ALL CLASSES SHOULD BE CONDUCTED ONLY IN ENGLISH
                    SO THAT CHILDREN HAVE TO LEARN ENGLISH RIGHT FROM
                    THE START.
        366   2. TWO, CHILDREN WHO DON'T KNOW ENGLISH SHOULD HAVE
                    CLASSES IN THEIR NATIVE LANGUAGE JUST FOR A YEAR OR
                    TWO UNTIL THEY LEARN ENGLISH.
        125   3. THERE SHOULD BE ONE SET OF CLASSES IN ENGLISH AND
                    ANOTHER SET IN SPANISH OR OTHER LANGUAGES ALL THE

                    WAY THROUGH HIGH SCHOOL SO THAT CHILDREN CAN KEEP UP
                    THEIR NATIVE LANGUAGES AND CULTURE IF THEY CHOOSE.

               MISSING 0 OR GE 9

               The high number ofMISSING data in the Z section is due to:
               1)  the original exclusion of the section from the printed
               questionnaire, with the subsequent delay for the additional
               pages to reach the field, and 2)  the failure of most
               interviewers who did phone interviews to complete this
               section.

               Z1.  Respondent's sex is:

VAR 937000    93PIL:TYPE OF INCUMBENT
              COLUMNS 2894 - 2894
              NUMERIC
              MISSING GE 9

              WAS INCUMBENT CANDIDATE R'S REPRESENTATIVE IN LAST CONGRESS?
              Substantial reapportionment following the 1990 Census
              occurred between the elections to the 102nd Congress (1990)
              and 103rd Congress (1992).  Variables 3019 and 3020 give the
              1992 and the 1990 congressional district numbers for the
              sample address in which the respondent resided at the time
              of their Pre-election interview.
              -----------------------------------------------------------

              This variable refers exclusively to redistricting between
              1990 and 1992 and it has no relevance for the 1994 study.

              Redistricting between the 1990 and 1992 elections was quite
              extensive.  As district boundary lines changed, it is
              possible that the incumbent running for re-election in a
              respondent's district was not the incumbent who had
              previously represented the segment in which the respondent
              lived.  For example, for the 102nd Congress, Ann Arbor
              Michigan was in Michigan's 2nd District represented by Carl
              Pursell.  After redistricting, Ann Arbor was part of the
              13th Congressional District, whose incumbent, Representative
              William Ford, ran for re-election to the 103rd Congress.
              Ford's constituents now include Ann Arborites who had
              previously been part of the 2nd District.  These
              constituents would be coded "2" for this variable, which
              records whether R was represented by the same or different
              incumbents in the 102nd and 103rd Congresses.

         123  0.  Neither of the candidates for the 103rd Congress
                  running in R's district was an incumbent in the
                  102nd Congress.
```

```
      438   1.  The incumbent who ran for re-election to the 103rd
                 Congress in the congressional district for the
                 sample segment in which R resided in 1992, is the
                 same incumbent who represented that segment in the
                 102nd Congress.

      130   2.  The incumbent who ran for re-election in R's
                 district in 1992 did not represent the sample
                 segment in which R lived  in the 102nd Congress.
       23   3.  LA06:  Two Republican incumbents ran in 1992,
                 neither of whom represented this segment in the
                 102nd Congress.

              NUMERIC
              MISSING 9

              FLAG TO SKIP Q.G3b(A) and Q.G9b(A)

              Questions G3b(A) and G9b(A) were slated to be dropped from
              the instrument because of time considerations.  In order to
              secure a descriptive notion of what R had in mind when
              answering Q.G3(A) or Q.G9(B), it was decided to ask the
              follow-up questions of a small number of people, who were
              randomly selected.  This variable flags Rs who could be
              asked Q.G3b(A) or Q.G9b(A).
              ------------------------------------------------------------

               Q.B2.  I'd like to get your feelings toward some of our
               political leaders and other people who have been in the
               news.  I'll read the name of a person and I'd like you to
               rate that person using something called the feeling
               thermometer.  You can choose any number between 0 and 100.
               The higher the number, the warmer or more favorable you feel
               toward that person;  the lower the number, the colder or
               less favorable. You would rate the person at the 50 degree
               mark if you feel neither warm nor cold toward them.  If we
               come to a person whose name you don't recognize, you don't
               need to rate that person.  Just tell me and we'll move on to
               the next one. [PROBE FOR DK RESPONSE: "When you say 'don't
               know' do you mean that you don't know  who the person is or
               do you have something else in mind?"]

               Q.B2a.  Using the thermometer, how would you rate Bill
               Clinton?

              ------------------------------------------------------

              NOTE:  Overwhelmingly, the Interviewers reported that Rs had
              no idea what we were referring to, most assuming we were
              saying something like "E Pluribus Unum" and they registered
              their approval of that sentiment, but when we asked next
              "Who founded it?" these same respondents were quite taken
              aback to find that this was in fact a group instead of a
              sentiment they were being asked to endorse.  USE THIS

              VARIABLE WITH EXTREME CAUTION.

VAR 937204     93PIL:F1/2 SELF-PLACEMENT ON POL RULER
               COLUMNS 3114 - 3114
               NUMERIC
               MISSING GE 8

               Q.D1.   (FORMS 1,2) We hear a lot of talk these days about
               liberals and conservatives. Think about a ruler where we are
               measuring political views that people might hold, from
               liberal to conservative.  On this ruler, which goes from one
               to seven, the number 1 means very liberal political views,
               and the number seven would be very conservative.  Just like
               a regular ruler, it has points in between at 2, 3, 4, 5, or
               6.

               Where would you place yourself on this ruler or haven't you
               thought much about this?
               ------------------------------------------------------------

               NOTE:   See Q.D1e-1 for FORMS 3,4. In this experiment, Forms

               1 & 2 respondents placed themselves before placing Clinton.
               In Forms 3 & 4, respondents were asked about Clinton before
               being asked to place themselves.

                   0.   HAVEN'T THOUGHT MUCH  - DO NOT PROBE
                   1.   VERY LIBERAL
                        .
                        .
                   7.   VERY CONSERVATIVE

          Q.D1-1. (FORMS 3,4) We hear a lot of talk these days about
          liberals and conservatives. Think about a ruler where we are
          measuring political views that people might hold, from
          liberal to conservative.  On this ruler, which goes from one
          to seven, the number 1 means very liberal political views,
          and the number seven would be very conservative.  Just like
          a regular ruler, it has points in between at 2, 3, 4, 5, or
          6.

          Where would you place Bill Clinton on this ruler or haven't
          you thought much about this?
          ------------------------------------------------------------

              Q.E17.  (FORMS 2,4) In talking to people about elections, we
              often find that a lot of people were not able to vote

              because they weren't registered, they were sick, or they
              just didn't have time.  How about you -- did you vote in the
              election this past November?
              -----------------------------------------------------------

         241    1.  YES

     Q.E33c(1). What should the government in Washington do to
     cut the budget deficit?   (What else should it do?)
     ---------------------------------------------------------

     Code up to six mentions.

 57   01.  Cut/limit/freeze spending - across the board or
           areas not specified.
 80   02.  Cut/eliminate wasteful, useless, unimportant,
           unnecessary spending; get rid of the fat; eliminate
           pork barrel spending - programs or areas of
           spending not specified; spending designed to
           benefit one congressman's district/one city or
           county - all mentions.
  4   03.  Get rid of fraud/corruption/graft/kickbacks in
           government and government spending - all mentions.
  6   04.  Reorganize spending priorities to cut/eliminate
           least important programs so more can be spent on
           important programs - all mentions (also code

           specific program mentions in 21-39, if given).
 17   05.  Run the government more efficiently/carefully; run
           the government (more) like a business/evaluate the
           need for all programs, departments and spending in
           a business-like way - all mentions.
 10   06.  Reduce the size of the federal government (except
           07) - cut size of the bureaucracy; eliminate
           duplication of services or programs; pass
           responsibility for certain programs back to the
           states or local governments; support fewer
           programs/stop trying to be all things to all
           people.
  5   07.  Reduce the cost/size of the Congress (except 22) -
           have fewer committees/congressional staff.
  2   08.  Reduce/eliminate/simplify federal regulation, red
           tape, paperwork.
      19.  Other general spending mentions.
  2   21.  Cut/eliminate the pay, fringe benefits, retirement
           programs, perks of federal employees (except 22).
 13   22.  Cut/eliminate the pay, fringe benefits, retirement
           programs, perks of politicians, members of
           Congress, ex-members of Congress, ex-presidents.
 28   23.  Cut/eliminate spending for the military, defense,
           overseas bases and deployment of troops.
      24.  Cut/eliminate spending for the space program.
 16   25.  Cut/eliminate spending for aid or support given
           foreign nations, the U.N.
      26.  Cut/eliminate spending for education; change the
           way money is spent for education.
      27.  Cut/eliminate spending for the arts.
  3   28.  Cut/eliminate spending for research programs,
           grants.
  4   29.  Cut/eliminate spending for domestic (special)
           interest subsidies (farm subsidies, rural
           electricity subsidies, merchant marine subsidies,
           etc.).
  7   30.  Cut/eliminate spending for entitlement programs -
           programs not specified.
  2   31.  Cut/eliminate spending for welfare, social programs
           (including medicaid, food stamps, ADC, etc.).
```

```
         32.  Cut/eliminate spending on illegal immigrants - all
              mentions.
      2  33.  Cut/eliminate spending for social security,
              medicare.
      2  39.  Other specific spending mentions.
     24  41.  Raise taxes - not specified which taxes or on whom.
         42.  Close tax loopholes - not specified which taxes or
              for whom.
         43.  Raise income taxes - across the board or not

              specified for whom.
         44.  Raise tariffs on imported goods.
      6  45.  Raise taxes on goods and services - gasoline,
              heating fuels, alcohol, tobacco, telephone service,
              luxury items, etc.
         46.  Raise taxes/close loopholes for
              corporations/businesses - all mentions.
      5  47.  Raise taxes/close loopholes for the "wealthy", the
              people who can afford to pay more - all mentions.
      1  55.  Cut taxes - all mentions.
      4  59.  Other revenue or tax mentions.
      1  71.  Limit the terms of members of Congress.
      1  72.  Reform financing of Congressional elections.
      3  73.  Control/eliminate lobbying, lobbyists.
      3  81.  Create more jobs for people/provide (more)
              incentive for business to create more jobs (so tax
              revenues will increase); provide retraining for
              unemployed workers (so they can become taxpayers
              again).
      3  89.  Other political system mentions.
      2  96.  Balance the budget - not further specified.
      4  97.  Other miscellaneous mentions.

              Q.F9.   Some people think that homosexuals have too much
              influence in American life and politics, others think they
              have just about the right amount of influence, while other
              people feel they don't have enough influence.

              What is your opinion?    OPTIONS MUST BE READ!   Homosexuals
              have too much influence; homosexuals have just the right
              amount of influence, or homosexuals don't have enough
              influence?

              Q.G1x.   SUMMARY:  R's Party ID
              -----------------------------

              Built from Q.G1, Q.G1a-c

              In traditional time-series data collections, respondents who
              answer "no preference" to the initial party identification
              question, and do not choose between Republican and
              Democratic parties at the follow-up, are not automatically
              coded as "apoliticals". Rather, if they are interested in
              politics, as evidenced by whether of not they voted in the
              general election and responses to other questions such as
              "care who wins" they are coded as "independents". This
              practice has not been followed in the pilot studies, since
              there are no questions which discriminate in the same way
              between apolitical due to lack of interest and true
              independents.

          85    0.   STRONG DEMOCRAT (5010)
         118    1.   WEAK DEMOCRAT (5050, 5080, 5090)
         105    2.   INDEPENDENT-DEMOCRAT (2005, 3005, 4005)
          33    3.   INDEPENDENT-INDEPENDENT (2003, 2008, 2009)
          83    4.   INDEPENDENT-REPUBLICAN (2001, 3001, 4001)

==============================
VAR 937374   93PIL:CONSEQ NATIONAL HEALTH INSURANCE
               COLUMNS 3292 - 3292
               NUMERIC
               MISSING 0 OR GE 8

               Q.G3(A).   (FORMS 1,2) We're going to ask you now to think
               about how various government policies might affect you
               personally and also different groups in American society.

               First, thinking about you personally and your life as it is:
               if the government set up a national health insurance plan,
               would the consequences for you, in general, be very
               positive, somewhat positive, somewhat negative, very
               negative, or would there be no consequences for you
               personally?

```
            ----------------------------------------------------------

            NOTE:            The difference between Forms 1 & 2 and Forms
            3 & 4 is that in the first version, respondents were asked
            about "you personally" at the beginning of the series, and
            about "the nation as a whole" at the end. For Forms 3 & 4.
            the order is reversed. For users' convenience, data from Q.
            G9(B) (FORMS 3,4) have been copied here.

             78   1.  VERY POSITIVE
            158   2.  SOMEWHAT POSITIVE
            128   4.  SOMEWHAT NEGATIVE
