Version 01 Codebook
-------------------
CODEBOOK VARIABLE DOCUMENTATION
1992 PRE-POST STUDY
(1992.TN)

                         1992 NES
                      VARIABLE ENTRIES

This file should be opened in fixed font, 10 pitch or smaller.
Codebook introductory material and appendix material are in
separate files.
------------------------------------------------------------------

NOTE ON VARIABLE NAMING:

The variable name references used in NES Study codebooks do not include
the "V" prefix found in all variable names used within the released
SAS and SPSS data definition files (.sas and .sps files).

For example, "VAR 920001" and "VAR VERSION" in Study codebooks refer to
V920001 and VVERSION in the study data definition files.

VARIABLE 'NUMBERING':

'Numbered' variables in NES timeseries datasets and in Pilot datasets
(except the 1998 Pilot) comply with the following format:

    2-digit year prefix  +  4 digits  +  [opt] 1-char suffix.

Examples:   1978 Post variable V780002; 1983 Pilot variable V832101.
Note that for datasets including data from multiple studies, the 2-digit
year prefix corresponds to the appropriate study year to which the
variable is associated; for example, the 1983 Pilot dataset also includes
1982 timeseries variables, for which the 2-digit prefix is 82.

Non-time-series studies other than Pilots use 2-character mnemonic
prefixes, for example variable VPS0048 in the 1988-1990-1992 Pooled
Senate Study dataset.

SPECIAL NOTE ON COLUMN LOCATIONS:

Some numeric variables use coding schemes that allow for code values
having a varying number of digits. In such instances, the number
of columns corresponding to the variable in the data file [.dat file]
and in the column specifications  will be the width of the maximum value
occurring in the actual data, rather than the maximum width allowable
by the coding scheme.  For example, if codes 01-12 are allowed for a
numeric variable but all values in the data are less than 10, then the
number of columns corresponding to the variable within the ASCII data
file will be 1.

1992 variables appear following the 1990 and 1991 variables (enhanced data).

==============================
```

```
VAR VERSION     NAME-NES VERSION NUMBER
                COLUMNS 1    - 2
                NUMERIC
                NO MISSING DATA CODES

                    NES VERSION NUMBER
                    .................

=============================
VAR DSETNO      NAME-NES DATASET NUMBER
                COLUMNS 3    - 9
                CHARACTER
                NO MISSING DATA CODES

                    NES DATASET NUMBER
                    .................

               SIZE OF PLACE OF INTERVIEW
               --------------------------

               This variable was coded according to the 1980 Census. The
               major objective of the Census Bureau in delineating
```

urbanized areas is to provide a better separation of urban
and rural population in the vicinity of large cities.

An urbanized area consists of a central city or cities, and
surrounding closely settled territory ("urban fringe").
Size of Place codes 21 and 41 include areas that are in the
"urban fringe" but are not Census Places.

SIX LARGEST SCSAs (OVER 4,000,000 POPULATION) AND FIVE OUT
OF TEN NEXT LARGEST SMSAs (2,000,000 POPULATION):
SEE APPENDIX NOTE

102 11. Central cities

SUBURBS OF SIX LARGEST SCSAs AND FIVE OUT OF TEN NEXT
LARGEST SMSAs:

 16 20. Rural (including rural places with less than 2,500
          population)
 50 21. 2,500-9,999 population plus other urbanized areas
          ("urban fringe" not in census places)
 59 22. 10,000-29,999 population
 45 23. 30,000-49,999 population
 47 24. 50,000-99,999 population
  4 25. 100,000-149,999 population
  2 26. 150,000-349,000 population
     27. 350,000 and over population, exclusive of cities
          coded 11

SMSAs WITH LESS THAN 2,000,000 POPULATION, EXCLUSIVE OF
THOSE IN THE SIX LARGEST SCSAs:

CENTRAL CITIES IN SMSAs WITH LESS THAN 2,000,000 POPULATION:

 13 30. Under 50,000 population (identified by Census
          Bureau as Central cities
 18 31. 50,000-99,999 population
 20 32. 100,000-149,999 population
103 33. 150,000-349,999 population
 34 34. 350,000 and over population

SUBURBS IN SMSAs WITH LESS THAN 2,000,000 POPULATION:

162 40. Rural (including rural places with less than 2500
          population)
129 41. 2,500-9,999 population plus other urbanized areas

          ("urban fringe" not in Census places
115 42. 10,000-29,999 population
 25 43. 30,000-49,999 population
 14 44. 50,000-99,999 population
     45. 100,000-149,999 population
  3 46. 150,000 and over population

NON-SMSAs:

251 50. Rural (including places with less than 2500
          population)
 54 51. 2,500-9,999 population

```
        93  52.   10,000-29,999 population
            53.   30,000-49,999 population

==============================
VAR 900023     NAME-BELT CODE
               COLUMNS 88   - 88
               NUMERIC
               MD=0

               BELT CODE (1980 CENSUS)
               ----------------------

               This variable was coded according to the 1980 Census with
               additions from Census Population Reports.  SUBURBS are
               defined as all urbanized areas in the SMSA exclusive of the
               areas coded 1 and 2 below, plus the remainder of any county
               that includes a central city or parts of a central city.
               (NOTE: in the New England division where SMSA boundaries do
               not follow county lines, it is necessary to limit this
               category to the SMSA part of a county that includes a
               central city).  An ADJACENT AREA includes all territory
               beyond the outer boundary of the suburban belt, but within
               fifty miles of the central business district of a central
               city.  An OUTLYING AREA includes all territory more than
               fifty miles from the central business district of a central
               city.

               SEE APPENDIX NOTE

        102  1.   Central cities of the 6 largest Standard
                  Consolidated Statistical Areas (SCSAs) plus five of
                  the ten next largest SMSAs (population over
                  2,000,000)
        188  2.   Central cities of SMSAs with less than 2,000,000
                  population (exclusive of those in the 6 largest
                  SCSAs)
        215  3.   Suburbs of the 6 largest SCSAs, and five of the ten

               for further details

==============================
VAR 900026     NAME-SELECTION TABLE
               COLUMNS 95   - 96
               NUMERIC
               MD=0

               SELECTION TABLE
               ---------------

               The Selection Table is used to select a respondent from all
               eligible adults (18 years of age or older by Election Day
               and U.S. citizens) in a household.  A complete listing of
               the household is taken and each eligible adult is assigned a
               number based on the criteria of sex and age.  The
               interviewer then uses the Selection Table to determine the
               number of the eligible adults to be interviewed.  The
               Selection Table consists of two parallel columns of numbers.
               In the first column the interviewer circles the total number
               of eligible adults in the household; in the second column
               there is a number that identifies (i.e., matches the number
               assigned to one of the eligible adults) the respondent.

               There are eight different Selection Tables used and they are
               randomly assigned.  The Selection Table appears on the
               coversheet below the household listing.  (Although only
```

```
             eight tables are used, there are 12 codes in this variable
             because the eight tables are used in cycles of 12; this
             procedure is used to equalize the probability of selection
             for each eligible adult).

VAR 900034    NAME-HOUSEHOLD COMPOSITION
              COLUMNS 105  - 106
              NUMERIC
              MD=0 OR GE  99

              HOUSEHOLD COMPOSITION
              ---------------------

              Householder refers to the person who owns or rents the home;
```

```
                in whose name the lease is held.  Cohabiting individuals
                living as married are coded as married (30,40,50,51,52).
                For roommates of opposite sex, respondent is considered the
                head/householder (11,12,21,22).

                Household refers to adults aged 18 years and over on
                election day, including non-citizens, living in the house at
                the time of interview.  Codes 10 or 20 include Respondents
                who are married with spouses residing elsewhere for reasons
                of work, illness or transfer.

           129  10.  1 adult male
            14  11.  1 adult male (head/householder) plus 1 other
                     non-relative
             7  12.  1 adult male (head/householder) plus 2 or more
                     non-relatives
           271  20.  1 adult female
            13  21.  1 adult female (head/householder) plus 1 other
                     non-relative
                22.  1 adult female (head/householder) plus 2 or more
                     non-relatives
           671  30.  1 married (or partnered) couple: all children
                     living at home are under 18 OR no children
           110  40.  1 married (or partnered) couple plus 1 other
                     relative
            41  50.  1 married (or partnered) couple plus 2 or more
                     other relatives
             2  51.  1 married (or partnered) couple plus 1 other
                     non-relative
                52.  1 married (or partnered) couple plus 2 or more
                     other non-relatives
            16  60.  1 unmarried male (head/householder) plus 1 other
                     relative
             6  70.  1 unmarried male (head/householder) plus 2 or more
                     other relatives, or any combination of relative(s)
                     and non-relative(s)
            53  80.  1 unmarried female (head/householder) plus 1 other

              In this interview I will be talking with you about the
              recent elections, as well as a number of other things.
```

First, I have some questions about the political campaigns
that took place this election year.

Q.A1. Some people don't pay much attention to political
campaigns. How about you?   Would you say that you were
VERY MUCH INTERESTED, SOMEWHAT INTERESTED, or NOT MUCH
INTERESTED in following the political campaigns this year?

```
 304  1.  VERY MUCH INTERESTED
 635  3.  SOMEWHAT INTERESTED
 419  5.  NOT MUCH INTERESTED

      8.  DK
   1  9.  NA

==============================
VAR 900134     NAME-FEELING THERM-BUSH
               COLUMNS 291  - 293
               NUMERIC
               MD=996 OR GE  997

               Q.B13.  (RB, P.5) I'd like to get your feelings toward some
               of our political leaders and other people who have been in
               the news.

               I'll read the name of a person and I'd like you to rate that
               person using something called the feeling thermometer.  You
               can choose any number between 0 and 100.  The higher the
               number, the warmer or more favorable you feel toward that
               person; the lower the number, the colder or less favorable.
               You would rate the person at the 50 degree mark if you feel
               neither warm nor cold toward them.  If we come to a person
               whose name YOU DON'T RECOGNIZE, you don't need to rate that
               person.  Just tell me and we'll move on to the next one. Our
               first person is George Bush.

               PROBE FOR "I DON'T KNOW" RESPONSE: When you say "don't know"
               do you mean that you don't know who the person is, or do you
               have something else in mind?

              Q.C12. (RB, P.6) There are many ways in which U.S.
              Representatives can have contact with the people from their
              districts. On this page are some of these ways. Think of
              (NAME #33 or 34) who has been a U.S. Representative in
              Washington. Have you come into contact with or learned
              anything about (him/her) through any of these ways?

              -- DISTRICT IN WHICH NO HOUSE INCUMBENT RAN --

              Q.C17.  (RB, P.6)  There are many ways in which
              congressional candidates can have contact with the people
              from their district.  On this page are some of these ways.
              Think about (NAME #31) who ran for the U.S. House of
              Representatives from this district in the last election.
              Have you come into contact with or learned anything about
              (him/her) through any of these ways?

              MD=0 OR GE  8

              Q.F14a1(1).  What are those differences? <between the
              parties>? <First mention>
              -----------------------------------------------------

              Spread mentions between party reference codes.  Code 6
              mentions.

              Responses that refer specifically to the candidates rather
              than parties should be coded "7".  If, however, the
              candidates are referred to as leaders or representatives of
              the parties, the response should be coded with the
              appropriate code category.

VAR 900479    NAME-R'S VIEW ON ABORTION
              COLUMNS 793  - 793
              NUMERIC
              MD=0 OR GE  8

             Q.M6.  (RB, P.17)  There has been some discussion about
             abortion during recent years.  Which one of the opinions on
             this page best agrees with your view?  You can just tell me
             the number of the opinion you choose.
             ---------------------------------------------------------------

             160  1.  BY LAW, ABORTION SHOULD NEVER BE PERMITTED
             428  2.  THE LAW SHOULD PERMIT ABORTION ONLY IN CASE OF RAPE,
                          INCEST, OR WHEN THE WOMAN'S LIFE IS IN DANGER
             200  3.  THE LAW SHOULD PERMIT ABORTION FOR REASONS OTHER
                          THAN RAPE, INCEST, OR DANGER TO THE WOMAN'S LIFE,
                          BUT ONLY AFTER THE NEED FOR THE ABORTION HAS BEEN
                          CLEARLY ESTABLISHED
             543  4.  BY LAW, A WOMAN SHOULD ALWAYS BE ABLE TO OBTAIN AN
                          ABORTION AS A MATTER OF PERSONAL CHOICE
              15  7.  OTHER, SPECIFY

               -- Qs.P1a-P1d ARE ASKED ON FORM A ONLY --

               Q.P1.  (RB, P.18)  Now I am going to read several
               statements. After each one, I would like you tell me whether
               you AGREE STRONGLY, AGREE SOMEWHAT, NEITHER AGREE NOR
               DISAGREE, DISAGREE SOMEWHAT, or DISAGREE STRONGLY with this
               statement.  You can just give me the number of your choice
               from the booklet.  The first statement is...

               Q.P1a.  The newer lifestyles are contributing to the
               breakdown of our society.
               ------------------------------------------------------------

               211  1.  AGREE STRONGLY
               232  2.  AGREE SOMEWHAT
               132  3.  NEITHER AGREE NOR DISAGREE
                61  4.  DISAGREE SOMEWHAT
                27  5.  DISAGREE STRONGLY

                11  8.  DK
                 9  9.  NA
              1802  0.  INAP, 2 in Q.N3; 1992 cross section

==============================
VAR 900501     NAME-WORLD ALWAYS CHANGING
               COLUMNS 815  - 815
               NUMERIC
               MD=0 OR GE  8

               Q.P1b.  The world is always changing and we should adjust
               our view of moral behavior to those changes.
               ------------------------------------------------------------

                93  1.  AGREE STRONGLY
               217  2.  AGREE SOMEWHAT
                86  3.  NEITHER AGREE NOR DISAGREE
```

```
            146  4.  DISAGREE SOMEWHAT
            121  5.  DISAGREE STRONGLY
             11  8.  DK
              9  9.  NA
           1802  0.  INAP, 2 in Q.N3 (Form A only); 1992 cross section

==============================
VAR 900502    NAME-TRADITIONAL FAMILY TIES
              COLUMNS 816  - 816
              NUMERIC
              MD=0 OR GE  8

              Q.P1c.  This country would have many fewer problems if there
              were more emphasis on traditional family ties.
              ----------------------------------------------------------------

            316  1.  AGREE STRONGLY
            223  2.  AGREE SOMEWHAT
             78  3.  NEITHER AGREE NOR DISAGREE
             39  4.  DISAGREE SOMEWHAT
             11  5.  DISAGREE STRONGLY

           1802  0.  INAP, 2 in Q.N3 (Form A only); 1992 cross section

==============================
VAR 900503    NAME-TOLERANT OTH MORAL STNDR
              COLUMNS 817  - 817
              NUMERIC
              MD=0 OR GE  8

              Q.P1d.  We should be more tolerant of people who choose to
              live according to their own moral standards, even if they
              are very different from our own.
              ----------------------------------------------------------

            146  1.  AGREE STRONGLY
            240  2.  AGREE SOMEWHAT
            107  3.  NEITHER AGREE NOR DISAGREE
            107  4.  DISAGREE SOMEWHAT
             63  5.  DISAGREE STRONGLY

             11  8.  DK
              9  9.  NA
           1802  0.  INAP, 2 in Q.N3 (Form A only); 1992 cross section

==============================
VAR 900504    NAME-TRUST GOVT IN WASHNGTON
              COLUMNS 818  - 818
              NUMERIC
              MD=0 OR GE  8

              Q.P2.  People have different ideas about the government in
              Washington.  These ideas don't refer to Democrats or
              Republicans in particular, but just to the GOVERNMENT IN
              GENERAL.  We want to see how you feel about these ideas. For
              example:

              How much of the time do you think you can trust the
```

```
               government in Washington to do what is right--JUST ABOUT
               ALWAYS, MOST OF THE TIME, or ONLY SOME OF THE TIME?
               ----------------------------------------------------------------

                 36  1.   JUST ABOUT ALWAYS
                332  3.   MOST OF THE TIME
                947  5.   SOME OF THE TIME
                 24  7.   R VOL:   NONE OF THE TIME

                 16  8.   DK
                  4  9.   NA
               1126  0.   INAP, 1992 cross section

==============================
VAR 900505     NAME-PEOPLE IN GVRNMNT WSTE $
               COLUMNS 819  - 819
               NUMERIC
               MD=0 OR GE  8

               Q.P3.  Do you think that people in government waste A LOT of
               the money we pay in taxes, waste SOME of it, or DON'T WASTE
               VERY MUCH OF IT?
               --------------------------------------------------------------

              MD=0 OR GE  8

              Q.R3.  (RB, P.21)  In past studies we have asked people why
              they think white people seem to get more of the good things
              in life in America--such as better jobs and more money--than
              black people do.  These are some of the reasons given by
              both blacks and whites.  Please tell me whether you agree or
              disagree with each reason as to why white people seem to get
              more of the good things in life.  (You can just give me the
              number of your choice.)  The first statement is... PROBE AS
              NECESSARY:  Do you AGREE STRONGLY, AGREE SOMEWHAT, NEITHER
              AGREE NOR DISAGREE, DISAGREE SOMEWHAT, or DISAGREE STRONGLY

              with this statement?)

              Q.R3a.  Over the past few years, blacks have gotten less
              than they deserve.
              --------------------------------------------------------------

            69  1.  AGREE STRONGLY

               THE RESPONDENT RELIGIOUS PREFERENCE was determined by a
               series of question coded in variables Q.X3a/Q.X3b-Q.X8.  In
               the simplest case (Catholics) only one question was asked
               (Q.X3a or Q.X3b).  In the most complex cases up to four
               questions were asked.  For a complete layout of this series
               please see section X of the questionnaire.

               The information gathered in Q.X3a/Q.X3b-Q.X8 was used to
               build:

               VARIABLE Q.X4z R'S RELIGIOUS PREFERENCE SUMMARY.

               Q.X3a.  Do you mostly attend a place of worship that is
               Protestant, Roman Catholic, Jewish, or what?

               Q.X3b.  Do you consider yourself PROTESTANT, ROMAN CATHOLIC,
               JEWISH, or what?
               -----------------------------------------------------------

```
VAR 900565    NAME-R'S EMPLOY STATUS
              COLUMNS 896  - 897
              NUMERIC
              MD=0 OR GE  99

              Q.Y4.  (RB, P.22) We'd like to know if YOU are working now,
              temporarily laid off, or are you unemployed, retired,
              permanently disabled, (a homemaker), (a student), or what?
              (MARK ALL THAT APPLY)
              ----------------------------------------------------------

              Code number pre-coded in green

              NOTE: Q.Y4 and Q.Y22 need to be coded with a 2-digit code
              that will allow us to classify a retired/permanently
              disabled/housewife/student who is also working now,
              differentiated as to whether the employment is half-time or
              more, or less than half-time.  To determine this you will
              have to scan the entire employment section for R
              (Q.Y4-Q.Y20a) to determine if R has information in more than
              one employment category.  If so, you will then need to
              determine the number of hours worked at the current job
              (Q.Y6a) and assign R to the combination category e.g.,
              working now and student) depending on whether they work 20
              hrs+ or less.  This is done for all respondents.  If R is
              working now only assign code 10 regardless of number of
              hours worked in Q.Y6a.
         792  10.   WORKING NOW only...(0 in Q.Y4a-Q.Y4e,

VAR 900613   NAME-HSBND/PRTNR:WRKNG STATUS
               COLUMNS 969 - 970
               NUMERIC
               MD=0 OR GE 99

               -- R'S HUSBAND/PARTNER OCCUPATION DATA --

               Q.Y22. (RB, STILL ON P.22) We'd like to know about (your
               husband/your partner). Is he working now, temporarily laid
               off, or is he unemployed, retired, permanently disabled, (a
               homemaker), (a student), or what? (MARK ALL THAT APPLY)

               Code number pre-coded in green.

               NOTE: Q.Y4 and Q.Y22 need to be coded with a 2-digit code
               that will allow us to classify a retired/permanently
               disabled/housewife/student who is also working now,
               differentiated as to whether the employment is half-time or
               more, or less than half-time. To determine this you will
               have to scan the entire employment section for R
               (Q.Y4-Q.Y20a) to determine if R has information in more than
               one employment category. If so, you will then need to
               determine the number of hours worked at the current job
               (Q.Y6a) and assign R to the combination category e.g.,
               working now and student) depending on whether they work 20
               hrs+ or less. This is done for all respondents. If R is
               working now only assign code 10 regardless of number of

```
                 hours worked in Q.Y6a.

VAR 912008     NAME-RESULT CODE
               COLUMNS 1119 - 1120
               NUMERIC
               MD=0

               Result Code
               -----------
```

Note: This result code is not comparable to result codes
appearing in administration files for NES time series
studies but is informative about noninterview cases, e.g.
refusals, on a more detailed level than V2007.

This variable represents a collapsing of 1991 telephone
interviewing result codes (which differ substantially from
personal interviewing result codes). Note that some cases
were 'predisposed' as nonsample (code 75) or noninterview

(code 65).

Cases 'predisposed' as NONSAMPLE were cases where the
respondent was known in advance to have no telephone, had
refused to give a telephone number, or where the number
given was known to be invalid, etc. so that R could not be
phoned. 38 of these 'predisposed' nonsample cases were not
assigned 1991 IDs (V2002) because they were not sent to the
Telephone Facility; the other 12 'predisposed' nonsample
cases were assigned IDs (and interviewers) before the
preexistant condition was noted or confirmed. Nonsample
cases coded "70" are those cases where R was called at what
was thought to be a correct number but where it was
discovered that the telephone number was incorrect, the
telephone was disconnected, etc. Code 70 also includes
several cases where R needed to be interviewed in Spanish:
there did not exist a Spanish language version of the 1991
Pilot interview.

Cases 'predisposed' as NONINTERVIEW were cases where it was
known in advance that R was deceased, was deaf or had a
hearing problem, was too disabled, weak, or feeble to
answere or sit at a telephone, or was otherwise physically
or mentally restricted from participating in a phone
interview. 2 'predisposed' noninterview cases were not
assigned 1991 IDs (V2002) while 20 have 1991 IDs, for
reasons similar to those mentioned above for 'predisposed'
nonsample cases. Noninterviews which were neither
'predisposed' nor refusals (code 60) contain the usual
nonrefusal noninterview types: upon calling, R is
discovered to be deceased, ill, residing or traveling
elsewhere and unavailable; never at home when called; no
answere, etc. It should also be noted that among
NONINTERVIEWS are some cases where respondents did not have
a telephone but did have a contact person through whom NES
attempted to reach R.

```
1057  01.  Interview
   3  05.  Interview partial
  70  50.  Refusal by R
   5  55.  Refusal by someone other than R
  86  60.  Other noninterview, not refusal
  22  65.  Predisposition as noninterview
  66  70.  Nonsample
  50  75.  Predisposition as nonsample

               B1a. I'd like to get your feelings toward some of our
               political leaders and other people who have been in the
               news. I'll read the name of a person and I'd like you to
               rate that person using something called the feeling
               thermometer. You can choose any number between 0 and 100.
               The higher the number, the warmer or more favorable you feel
               toward that person; the lower the number, the colder or less
               favorable. You would rate the person at the 50 degree mark
               if you feel neither warm nor cold toward them. If we come
               to a person whose name you don't recognize, you don't need
               to rate that person. Just tell me and we'll move on to the
               next one.

               Our first person is Norman Schwartzkopf.

               FOR QUESTIONS B1a - B1p, PROBE FOR DK RESPONSE: "When you
               say 'don't know' do you mean that you don't know who the
               person is or do you have something else in mind?" Probes are
               coded in variables 2245 - 2264.

                   The "Feeling Thermometer" questions above (series B1 for
                   individuals, series B2 for groups) were asked differently
                   for each of the three Forms. They were asked in different
                   sequences, and not all questions were asked for each Form.
                   The following list identifies the questions, in the sequence
                   asked, for each of the three Forms:

                                      Form 1

                   Norman Schwartzkopf, Richard Cheney, Lloyd Bentsen, George

VAR 912450    NAME-D1 LIB/CON
            COLUMNS 1468 - 1468
            NUMERIC
            MD=8 OR GE  9

            D1.  We hear a lot of talk these days about liberals and
            conservatives.  Please think of a seven-point scale on which
            the political views that people might hold are arranged from
            extremely liberal to extremely conservative.  On this scale,
            a measurement of one means extremely liberal political
            views, and a measurement of seven means extremely
            conservative political views.  Moderate or middle of the
            road is at point 4, and of course there are points in
            between at 2, 3, 5, and 6.

            Where would you place yourself on this scale, or haven't you
            thought much about this?
            ------------------------------------------------------------

             31  1.  EXTREMELY LIBERAL
             33  2.  LIBERAL
             87  3.  SLIGHTLY LIBERAL
            217  4.  MODERATE; MIDDLE OF THE ROAD
            119  5.  SLIGHTLY CONSERVATIVE
            101  6.  CONSERVATIVE
             44  7.  EXTREMELY CONSERVATIVE

               before the war in the Persian Gulf started, Congress debated

               whether to continue economic sanctions or to give President
               Bush the authority to use military forces to get Iraq out of
               Kuwait.  At that time, were you for continuing to rely on
               sanctions, or were you in favor of authorizing the President
               to use military force, or didn't you have an opinion on
               this?

               1992 PRE-ELECTION STUDY CASE ID OF RESPONDENT
               --------------------------------------------

               NOTE: There are three gaps in the sequence of pre-election
               case IDs: there are no cases numbered 3333, 3359 or 3362.
               Cases 2149, 2364 were included in the first release of this
               collection but will not appear in future releases.

               About 55% of the 1992 Election Study respondents were
               initially interviewed in the 1990 Election Study and
               therefore are panel respondents.  Please see introduction
               for further details of the 1992 Study Design.

                   0001-1126.  Cross-section respondent
                   2001-3364.  Panel respondent

```
            MD=0

            PANEL RESPONDENT'S STATUS FOR THE 1991 PANEL/PILOT STUDY
            --------------------------------------------------------

            All 1992 Election Study Panel respondents were interviewed
            in the 1990 Election Study.  Some were also interviewed in
            the 1991 Consequences of War Study (ICPSR 9673).  This
            variable denotes the respondent's status vis-a-vis the 1991
            Study.  See the introduction for a description of the 1992
            Study design.

       1060  1.  Interviewed in 1991
        116  4.  Defined as Non Sample for the 1991 Study
        183  5.  Did not give an interview in 1991

       1126  0.  INAP, 1992 Cross-section

===============================
VAR 923008    NAME-WEIGHT=PANEL/CROSS
              COLUMNS 1586 - 1591
              NUMERIC    DEC 4
              NO MISSING DATA CODES

              FULL SAMPLE WEIGHT
              ------------------

              This weight compensates for the unequal probabilities of
              selection for respondents in different size households and
              for differential nonresponse across geographic sample design
              categories and between panel and cross-section respondents.
              It is post-stratified to 1990 Census proportions for 24 age
              by sex by Census region categories. This is a 5 digit
              variable with 4 decimal places.  The weight is centered
              with a mean of 1.0.

              This is the first time that NES has put out a weight which
              compensates for nonresponse, although it has now become a
              fairly standard part of survey data collections. Such a
              weight is  particularly appropriate for descriptive
              statistics.

              See also V7000 and the Sample Design section of the
              introductory materials for the 1992 Pre- and Post-Election
              Survey.

===============================
VAR 923009    NAME-WEIGHT-PANEL ONLY
              COLUMNS 1592 - 1597
              NUMERIC    DEC 4
              NO MISSING DATA CODES

              PANEL ONLY WEIGHT
              -----------------

              This weight is to be used for analyses which use only the
              1,361 panel cases; the supplemental cross-section cases
              (n=1,126) have a value of "0" in this field.  The weight
              compensates for the unequal probabilities of selection for
              respondents in different size households, and for
```

differential nonresponse across geographic sample design

categories. It is post-stratified to 1990 Census
proportions for 24 age by sex by Census region categories.

This is a 5 digit variable with 4 decimal places.
The weight is centered with a mean of 1.0.

See also V7000.

              NUMERIC
              NO MISSING DATA CODES

              PRE-ELECTION FORM-SAMPLE INDICATOR
              ---------------------------------
```

There were two forms for both the pre-election and post-
election questionnaires. One, the "long questionnaire" was
the standard form designed to be used for all face-to-face
interviews. The other, the "short questionnaire" was a
truncated version of the questionnaire which was designed

solely to interview over the phone panel respondents who
since 1990 had moved to areas where SRC no longer had
interviewers. The short version of the instrument should not
have been used with cross-section cases; however, 4 cases
were administered using these short questionnaires in error
(code 4). Regrettably, some panel respondents who had not
moved out of range were administered the short form of the
questionnaire. This variable in conjunction with v3071 will
identify these cases.   These problems of administration are
described in the introduction and in Technical Report #43,
available from NES Project Staff.

The Spanish Language short questionnaire was administered
both to cross-section respondents and to panel respondents
who were unable to be interviewed in English.

==============================
VAR 923012    NAME-3-DIGIT PRIMARY AREA
              COLUMNS 1600 - 1602
              NUMERIC
              NO MISSING DATA CODES

              PRIMARY AREA CODE (3 digits)
              ----------------------------

              This is a 3-digit variable.  The first digit indicates
              whether a sample point comes from the 1990 sample (1=panel),
              or from the 1992 (2=fresh cross-section).  The last 2 digits
              denote the primary area.  Please note that: Monroe and
              Ashley County AR both share PA# 77, and Phillips County, KS
              and Saline, NE share PA #68.  The original 1990 Primary
              areas Monroe (68) and Saline (70) were depleted, so new
              Primary areas had to be selected from the same sample
              strata.  For information on sample design please see:
              "Sample Design of the 1992 Pre- and Post-Election Study" in
              the introduction of this documentation.

              PRIMARY AREAS in alphabetic order:

===============================
VAR 923019     NAME-1992 CONG DISTRICT
               COLUMNS 1635 - 1636
               NUMERIC
               NO MISSING DATA CODES

               1992 CONGRESSIONAL DISTRICT NUMBER (2 digits)
               ---------------------------------------------

               This is a two-digit variable which, when combined with
               either the FIPS State Code (v3018) or the ICPSR State Code
               (v3017), gives the congressional district for the sample
               location in which the R resided at the time of our initial
               interview with him/her in 1990 (panel respondents) or 1992
               (cross-section respondents). This variable reflects the
               redistricting based on the 1990 Census, in effect for the
               1992 General Election.

               Note that this is not necessarily the congressional district
               in which panel R's lived in 1992, due to mobility, nor is it
               necessarily the district in which an R, cross-section or
               panel, voted in 1992, since respondents may have two
               residences, move bewtween the Pre- and Post-Election
               studies, be voting from a previous residence, etc. Variable
               5001 records the ICPSR state and district where R voted if
               different from the congressional district of their sample
               address.

               Actual values are coded, as documented in v3016, except:

                   98.  At-large

===============================
VAR 923020     NAME-1990 CONG DISTRICT
               COLUMNS 1637 - 1638
               NUMERIC
               NO MISSING DATA CODES

               1990 CONGRESSIONAL DISTRICT NUMBER
               ----------------------------------

               For panel respondents, this variable identifies the
               congressional district for the sample location in which R
               resided in 1990, as the district was configured before the
               1990 Census-based redistricting.  It is the same as the
               congressional district given for this respondent in the 1990
               dataset.

               For cross-section respondents, this variable identifies the
               congressional district number for the sample location in
               which R resides, as it was prior to the 1990 Census-based
               redistricting.

               Actual values are coded, as documented in v3016, except:
```

                98. At-large

================================
VAR 923021   NAME-TYPE RACE HOUSE
               COLUMNS 1639 - 1640
               NUMERIC
               NO MISSING DATA CODES

               TYPE OF RACE: HOUSE OF REPRESENTATIVES

               The term incumbent as used in an election held just after
               redistricting requires some definition. An incumbent, as we
               use the term here and throughout the study, is a person who
               was in the 102nd Congress, just preceding this election.
               The incumbent may or may not have represented the particular
               piece of geography which is the sample segment in which the
               R was interviewed. That is, the incumbent may or may not
               have been R's representative in the preceding Congress. All
               incumbent related variables in the study should be used with
               this caution in mind. See also V7001.

               Listed here are the House races present in the 1992 sample.

               SEE APPENDIX NOTE

               INCUMBENT   CANDIDATE(S)

          1253 12. Democratic incumbent running -- Republican
                     challenger
            77 14. "   "   "   -- Unopposed

           586 21. Republican incumbent running -- Democratic
                     challenger
            30 24. "   "   "   -- Unopposed

            24 45. Two Republican incumbents running (LA06)

               The November 3rd election for the House of Representatives
               in Louisiana is really a primary run-off for the state.
               Congressional district 06 (LA06), a "new district," fielded
               candidates Richard H. Baker and Clyde C. Holloway, both of
               whom are Republicans and incumbents from old districts. In
               other circumstances, both would have been assigned #34 in
               the candidate list. In order to avoid restructuring the
               questionnaire, the House race in LA06 was treated as an open
               race with Baker #31 and Holloway #32. Code 45 in 3021
               should be used to exclude these cases from analysis
               pertaining to Democratic candidates.

                51. Democratic incumb. not running -- Dem. candidate
                     unopposed
             1 52. "   "   "   "   -- Rep. candidate
                     unopposed
           292 55. "   "   "   "   -- Dem. & Rep.
                     candidates

           123 65. Republican incumb. not running -- Dem. & Rep.

               379  85.   Democratic and Republican incumbents -- no race in
                          state

               243  95.   Two Senate races, including one open race and one
                          race with running Republican incumbent (CA)**

                ** Republican "incumbent" served partial term upon
                appointment by departing Senator.

                V7001: Was incumbent candidate respondent's representative
                in last Congress? (Textual Description Only--Actual variable
                location is as the last variable in the data file)

                Substantial reapportionment following the 1990 Census

                occurred between the elections to the 102nd Congress (1990)
                and the 103rd Congress (1992).  Variables 3019 and 3020 give
                the 1992 and the 1990 congressional district numbers for the
                sample address in which the respondent resided at the time
                of their Pre-election interview.

                Redistricting between the 1990 and 1992 elections was quite
                extensive.  As district boundary lines changed, it is
                possible that the incumbent running for re-election in a
                respondent's district was not the incumbent who had
                previously represented the segment in which the respondent
                lived.  For example, for the 102nd Congress, Ann Arbor,
                Michigan was in Michigan's 2nd District represented by Carl
                Pursell.  After redistricting, Ann Arbor was part of the
```

13th Congressional District whose incumbent, Representative
William Ford, ran for re-election to the 103rd Congress.
Ford's constituents now include Ann Arborites who had
previously been part of the 2nd District. These
constituents would be coded "2" on variable 7001, which
basically records whether respondent was represented by the
same or different incumbents in the 102nd and 103rd
Congresses.

          0.   Neither of the candidates for the 103rd Congress
               runing in respondents district was an incumbent in
               the 102nd Congress.
          1.   The incumbent who ran for re-election to the 103rd
               Congress in the congressional district for the
               sample segment in which respondent resided in 1992,
               is the same incumbent who represented that segment
               in the 102nd Congress.
          2.   The incumbent who ran for re-election in
               respondent's district in 1992 did not represent
               the sample segment in which respondent lives in
               the 102nd Congress.
          3.   LA06: Two Republican incumbents ran in 1992,
               neither of whom represented this segment in the
               102nd Congress.

          9.   Indeterminate; NA

VAR 923023   NAME-92PRE: REALISE
              COLUMNS 1643 - 1643
              NUMERIC
              NO MISSING DATA CODES

              PRE-ELECTION SAMPLE RELEASES AND REPLICATES

              In order that analyses of respondents' reactions to the
              campaigns not be confounded with ease or difficulty of
              contacting respondents and persuading them to be
              interviewed, NES has, since 1984, followed a strategy of
              releasing Pre-election sample in stages. In 1984 and 1988,
              there were four two-week target periods. In 1992, because
              the sample design was unusually complicated, and quartering
              the sample would have resulted in cost inefficiencies, we
              released panel and cross-section sample in four week target
              periods. The assignment of sample lines to target periods
              was random. The sets of assigned lines are known as
              "replicates."   The first replicate (55% of the sample
              thought to be necessary if response and eligibility rates
              were as estimated) was released on September 1st, the second
              (45%) on October 1st.

              Three replicates were designated as "reserve" to release as
              needed, depending on an evaluation of sample performance as
              of September 30th. At that time, it was decided to release
              Reserve Replicates 4 and 5 on October 1st along with
              replicate 2. (Although Reserve Replicate 3 was not
              released, 12 respondents were interviewed from that
              replicate, in error.)

```
            1285  1.  Replicate 1, Released Sept.1st.
             995  2.  Replicate 2, Released Oct.1st.
              12  3.  Reserve Replicate 3, Not officially released [IWs
                        conducted in error]
             119  4.  Reserve Replicate 4, Released Oct. 1st.
              74  5.  Reserve Replicate 5, Released Oct. 1st.

              PRE-ELECTION SAMPLE RELEASE -- SUMMARY
              --------------------------------------

              The interviewing time for the Pre-election, Sept. 1 to Nov.
              2, was divided into 2 periods: Sept. 1 - Sept. 30, to
              interview the first replicate;  and Oct. 1 - Nov. 2, for
              subsequent replicates.  This variable summarizes information
              on the time frame for the release of each replicate and the
              time of actual completion of the interview.

             969  1.  Sample released Sept. 1, interview completed before
                        Oct. 1

             316  2.  Sample released Sept. 1, interview completed between
                        Oct. 1 - Nov. 2
            1197  3.  Sample released Oct. 1, interview completed between
                        Oct. 1 - Nov. 2
               3  4.  Sample intended to be released Oct. 1, but by error
                        released and interview completed before Oct. 1

                    PRE-ELECTION: MODE OF INTERVIEW: TELEPHONE OR PERSONAL

                    The study design called for face-to-face interviews for all
                    respondents except for a few panel respondents who had moved
                    out of the range of SRC interviewers. See v3071 for coding
                    of whether the respondents were in range or not. A
                    SHORT-FORM or abbreviated questionnaire (both English and
                    Spanish) was prepared to use with these respondents over the
                    phone. See v3011 which records use of short-form versus
                    long-form questionnaires. Telephone interviews were in fact
                    taken with a number of cross- section respondents and a
                    number of panel respondents who had not moved out of range.
                    This situation is fully described in the introduction and in
                    Technical Report #43, avaialble from NES Project Staff.

              PRE-ELECTION: TYPE OF INCENTIVE SENT TO SELECTED HOUSEHOLD
              ---------------------------------------------------------

              An incentive experiment was implemented in the 1991 Panel
              study to determine whether a modest incentive would improve
              response rate. Some respondents received a U of M pen along
              with a letter asking for their participation, others
              received the letter only.  In 1992 all selected households
              were sent an incentive also with the usual advance letter.
              Respondents who had been sent a pen in 1991 were sent a book
              of stamps in 1992.

      2188  1.  UM pen (panel and cross-section)

VAR 923063    NAME-FIPS SMSA CODE
              COLUMNS 1703 - 1706
              NUMERIC
              MD=0

              FIPS 1980 SMSA CODE
              -------------------

              These FIPS SMSA codes were obtained from the Federal
```

Information Processing Standard Publication, U.S. Department
of Commerce, National Bureau of Standards.

The 1980 SMSA Codes have for the most part been carried over
by the Office of Management and Budget (OMB) to the 1990
Metropolitan Statistical Areas (MSA's). However, some MSA
names and definitions have been modified by OMB to reflect
shifts in population and changes in characteristics of
areas. In the 1992 NES data, the 1980 SMSA codes have been
retained for all parts of the MSA primary sampling units
(PSU's). It should be remembered that, particularly in the
case of PMSAs (which are part of consolidated areas (or
CMSAs) some counties or county parts may in 1990 be defined
by OMB as part of a different PMSA (a good example is
Chicago, IL). It was felt that for NES analysis, to retain
the older SMSA codes, which correspond to the 1980 sampling
frame used for this sample, was most appropriate for all MSA

or PMSA areas.

In those areas designated "Non-SMSA" in our sample frame
("Non-MSA" on most of our documentation for 1992 NES), there
are two PSUs (#64, Gardner, MA, and #82, El Dorado/Alpine,
CA) in which some of the 1980 rural area has in 1990 met the
requirements for inclusion in an MSA; in these cases the
size of place code was modified to reflect this and the 1990
MSA number is indicated for the affected segments (Core
segment 009 in Gardner, MA, where Barre town--not associated
with any SMSA in 1980--is now a part of the 1990 Worchester,
MA, MSA, and all of the NES segments in El Dorado/Alpine,
CA,-- i.e., core segments 001 and 007 and panel segments
002, 003, 005, 007, 009 and 011-- all in El Dorado county
which is part of the 1990 Sacramento, CA, MSA.)

                   32 (Dayton-Springfield, OH) which is nolonger
                   consolidated in 1990 since Dayton and Springfield
                   were combined in a single MSA

==============================
VAR 923065    NAME-SIZE OF PLACE
              COLUMNS 1709 - 1710
              NUMERIC
              NO MISSING DATA CODES

              SIZE OF PLACE OF INTERVIEW - 1990
              --------------------------------

              Coded according to the 1990 Census.  The major objective of
              the Census Bureau in delineating urbanized areas is to
              provide a better separation of urban and rural population in
              the vicinity of large cities.  An urbanized area consists of
              a central city or cities, and surrounding closely settled
              territory ("urban fringe").  Size of Place codes 21 and 41
              include areas that are in the "urban fringe" but are not
              Census Places.

              For the six largest CMSAs plus twelve of the fifteen next
              largest CMSA/MSAs (i.e., those coded 1 or 3 (possibly 5,
              rarely 6) on the Belt Code):

       285   11.   Central Cities (these would have been coded 1 on
                   the Belt Code).

              Suburbs of the six largest CMSAs and twelve of the fifteen
              next largest CMSA/MSAs (coded 3 (sometimes 5 and rarely 6)
              on Belt Code):

        41   20.   Rural (including rural places with less than 2500
                   population)
       140   21.   2,500-9,999 plus other urbanized areas ("urban
                   fringe" not in Census places)
       170   22.   10,000-29,999
        71   23.   30,000-49,999

       127   24.   50,000-99,999
        12   25.   100,000-149,999
         4   26.   150,000-349,999
             27.   350,000 and over, exclusive of cities coded 11

              CMSA/MSAs with less than 2,000,000 population (exclusive of
              those in the six largest CMSAs and 12 of 15 next largest
              CMSA/MSAs)

              Central Cities in CMSA/MSAs with less than 2,000,000
              population (coded 2 on Belt Code):
```

```
 40  30.  Under 50,000 (identified by OMB in 1990 as Central
               Cities)
 49  31.  50,000-99,999
 42  32.  100,000-149,000
128  33.  150,000-349,999
 91  34.  350,000 and over

     Suburbs in CMSA/MSAs with less than 2,000,000 population
     (coded 4 (or 5 and rarely 6) on Belt Code):

238  40.  Rural (including rural places with less than 2,500
               population)
237  41.  2,500-9,999 plus other urbanized areas ("urban
               fringe" not  in Census Places)
 99  42.  10,000-29,999
 37  43.  30,000-49,999
 14  44.  50,000-99,999
 27  45.  100,000-149,999
  3  46.  150,000 and over

     "NON-CMSA/PMSA/MSAs"*   Population of place, within these
     "non-SMSA" areas, as reported in 1990 Census.

415  50.  Rural (including places with less than 2,500
               population)
 89  51.  2,500-9,999
119  52.  10,000-29,999
  7  53.  30,000-49,999

     * In a few cases, Non-MSA PSUs (based on the 1980 OMB SMSA
     definitions) contain areas which are now part of a 1990 PMSA
     or MSA (based on the June 1990 OMB definition).  In these
     cases, the Size of Place Code for any SSUs (segments) within
     such areas are coded in the "40s" rather than in the "50s"

     as shown below.  This occurred in El Dorado county, CA (the
     major part of the El Dorado/Alpine Co, CA PSU #82) which is
     now a part of the Sacramento, CA, MSA, and also for one SSU
     (segment) in the Gardner, MA (PSU #64) which is now a part
     of the Worchester, MA, MSA.

VAR 923067    NAME-BELT CODE
              COLUMNS 1715 - 1715
              NUMERIC
              NO MISSING DATA CODES

              BELT CODE - 1990 - NES
              ----------------------

              Coded according to the 1990 Census and 1990 OMB definitions,
              1990 census population reports and 1980 (since 1990 not
              available) maps showing "urban areas".

          285 1.  Central Cities* of the six largest** (population
                  over 4,500,000) Consolidated Metropolitan
                  Statistical Areas (CMSAs), plus 12*** of the 15 next
                  largest CMSA/MSA (population over 2,000,000)

                  This would include all 1980 National Sample Frame
                  self-representing areas, plus Newark, NJ (as well as
                  SRP Nassau-Suffolk NY as part of the NYC CMSA) and
                  Anaheim and Riverside CA (as part of the LA CMSA)
                  plus three other non-selfrepresenting primary areas
                  included within the "population over 2,000,000"

                  definition (Miami-Fort Lauderdale, FL CMSA,
                  Seattle-Tacoma, WA CMSA, and Phoenix, AZ MSA).

          350 2.  Central Cities of CMSAs and Metropolitan Statistical
                  Areas (MSAs) with fewer than 2,000,000 population
                  (exclusive of those in the twenty-one largest
                  CMSA/MSAs--i.e., those listed above)
          526 3.  Suburbs**** of the six largest CMSAs and 12 of the
                  15 next largest CMSA/MSAs
          515 4.  Suburbs of all other CMSA/MSAs
          686 5.  Adjacent Areas:  includes all territory beyond the
                  outer boundary of the suburban belt, but within
                  fifty miles of the central business district of a
                  central city
          123 6.  Outlying Area:  includes all territory more than
                  fifty miles from the central business district of a
                  central city

           * Central Cities as designated in Metropolitan Statistical
           Areas, 1990, U.S. Office of Management and Budget,
           Washington, DC (Jun 1990).

           ** Statistical Abstract of the United States 1991, (111th
           Edition), U.S. Department of Commerce, Economics and
           Statistics Administration, Bureau of the Census, Table No.
           38. "70 Largest Metropolitan Areas--Racial and Hispanic
           Origin Populations: 1990" Pp 33.

           *** Cleveland-Akron-Lorain, OH CMSA, Tampa-St Petersburg-
           Clearwater, FL CMSA and San Diego, CA MSA are not primary
           selections within the two-thirds SRC National Sample so do
           not occur in the 1992 NES data set.

           ***** Suburbs are defined as all "urbanized areas" in the
           Primary Area exclusive of the areas coded "1" and "2" above,
```

                  plus the remainder of any county which includes a central
                  city or parts of a central city. (NOTE: In the New England
                  division where MSA boundaries do not follow county lines, it
                  is necessary to limit this category to the SMSA part of a
                  county which included a central city.)

VAR 923073   NAME-92PRE: SEL TABLE
              COLUMNS 1725 - 1726
              NUMERIC
              MD=0

              PRE-ELECTION, CROSS-SECTION: SELECTION TABLE

              The Selection Table is used to select a respondent from all
              household members who are eligible adults. (An eligible
              adult is a U.S. citizen who is 18 years of age or older by
              Election Day.) The Selection Table appears on the
              Coversheet below the Household Listing.

              After a complete listing of the HH is taken, each eligible
              adult is assigned a "Number" based on the criteria of gender
              and age [beginning with the oldest male as number 1, males
              are numbered by increments of 1 according to descending age;
              females are numbered by descending age starting with the
              number one higher than that assigned to the youngest male].
              The interviewer then uses the Selection Table to determine
              the "Number" of the eligible adult to be interviewed.

```
         The Selection Table itself consists of 2 parallel columns.
         In the first column the interviewer circles the total number
         of eligible adults in the household; in the second column
         (same row) is identified the "Number" of the person who will
         be the respondent.  Below is an example of what one
         Selection Table looks like [Table A]:

              SELECTION TABLE A

              If the number     Interview
              of eligible       the person
              persons is:       numbered:

              1                 1
              2                 1
              3                 1
              4                 1
              5                 1
              6 or more         1

         There are 8 different Selection Tables used and they are
         randomly assigned.  [Note that although only 8 tables are
         used, there are 12 codes in this variable because the 8
         tables are used in cycles of 12; this procedure is used to
         equalize the probability of selection for each eligible
         adult].  A summary describing all 8 Selection Tables appears
         below.

         # PERSONS        PERSON SELECTED (person "Number")

==============================
VAR 923077    NAME-92PRE: HH COMP
              COLUMNS 1730 - 1731
              NUMERIC
              MD=0 OR GE  99

              PRE-ELECTION, CROSS-SECTION:  HOUSEHOLD COMPOSITION CODE
              -------------------------------------------------------

              The HH composition code is derived from information provided
              in the household listing.  "Adults" are 18 years of age (by
              election day) or older; all individuals included in the HH
              composition codes below refer to adults.

              A designation of a HH member as "the householder" (HHR)
              describes HU member who owns or rents the home (in whose
              name the lease is held).  Cohabiting couples are coded as
              married (30,40, 50-52).  Roommates of opposite sex are coded
              11,12,21,22; in all cases of unrelated roommates the

              respondent is HHR.

              See Note at 3072.

          127  10.  1 adult male HHR
            6  11.  1 adult male HHR plus 1 other non-relative
            4  12.  1 adult male HHR plus 2 or more non-relatives
          208  20.  1 adult female HHR
           14  21.  1 adult female HHR plus 1 other non-relative
            1  22.  1 adult female HHR plus 2 or more non-relatives
          561  30.  1 married couple: no children or all children
                    living at home are under 18
           84  40.  1 married couple plus 1 other relative
           40  50.  1 married couple plus 2 or more other relatives
            4  51.  1 married couple plus 1 other non-relative
            1  52.  1 married couple plus 2 or more non-relatives
           16  60.  1 unmarried male HHR plus 1 other relative

==============================
VAR 923078    NAME-92PRE: HH DESCR ALL
              COLUMNS 1732 - 1733
              NUMERIC
              MD=0 OR GE  99

              PRE-ELECTION: HOUSEHOLD DESCRIPTION FOR PANEL AND CROSS-
              SECTION
              -------------------------------------------------------

              This variable was built for cross-section cases using: (1)
              questions Y55-Y56d for information about R's children and
              children for which R is responsible living with R at least
              half time; and (2) the household composition variable (3077)
              and marital status variable (Y2) for information about other
```

adults. For cross-section cases, codes 10 and 11 correspond
to 10 and 20 in 3077 (HH composition), codes 20 and 21
correspond to 1 and 7 in Y2 (marital status), and codes
30-31 correspond to cases in the non-married categories of
Y2 (marital status) and not 10 nor 20 in CS15 (HH
composition). Note, however, that six cases [IDs
39,92,224,359,599,704] coded 10 or 20 in the HH composition
were actually cases of married Rs (spouse in nursing home,
spouse living away due to work requirements, spouse in

service), and these cases are included in codes 20-21 here.

Since there was no Household Listing in 1992 for panel
respondents, this variable was built using survey variables:
(1) questions Y55-Y55d for information about R's children
and children for which R is responsible living with R at
least half time; and (2), since no HH composition variable
is present, marital status (Y2) and question Y39 for
information about other "adults." This means that for Panel
cases coded 30-31, a person counted as another "adult" may
include a household member 14-17 years old as well as
persons 18 or older. Panel cases coded 10 and 11 correspond
to 1 in Y39, codes 20 and 21 correspond to 1 and 7 in Y2
(marital status), and codes 30-31 correspond to cases coded
2 in Y39 and not 1 nor 7 in Y2.

In all cases coded 20-21, adults other than R and spouse may
also be in household.

    528 10. One adult (R), no children
    134 11. One adult (R), child/ren

    644 20. Married/partnered couple including R, no children
    642 21. Married/partnered couple including R, child/ren

    210 30. 2 or more adults (R not married), no children
     71 31. 2 or more adults (R not married), child/ren

VAR 923305    NAME-92PRE: D2a. THERM BUSH
              COLUMNS 1920 - 1922
              NUMERIC
              MD=997 OR GE  998

              D2.  (RB, P.3) I'd like to get your feelings toward some of
              our political leaders and other people who are in the news
              these days.

              I'll read the name of a person and I'd like you to rate that
              person using something we call the feeling thermometer.

              Ratings between 50 degrees and 100 degrees mean that you
              feel favorable and warm toward the person.

              Ratings between 0 degrees and 50 degrees mean that you don't
              feel favorable toward the person and that you don't care too
              much for that person.

              You would rate the person at the 50 degree mark if you don't
              feel particularly warm or cold toward the person.  If we
              come to a person whose name you don't recognize, you don't
              need to rate that person.  Just tell me and we'll move on to
              the next one.

              Our first person is George Bush.  How would you rate him
              using the thermometer?

              PROBE FOR "I DON'T KNOW" RESPONSE:  When you say "don't
              know" do you mean that you don't know who the person is, or
              do you have something else in mind?

              D2a.  GEORGE BUSH <Feeling Thermometer>

               NOTE: J10-J11b presented difficult problems for interviewers
               and respondents alike. The intended reference was the
               incumbent of the 102nd Congress running for re-election as
               the district was constituted for the 103 rd Congress. Thus,
               many respondents were asked to evaluate the performance of
               an incumbent who was not their Representative in the 102nd
               Congress. Second, primaries were not held in FL, AZ, CT,NH,
               LA, MA MN NY, WA, WI until after the start of interviewing
               on September 1, so in many cases names of candidates were
               not decided at the start of interviewing. The candidate
               names were given to interviewers as soon as they became
               available.

              -----------------------------------------------------------

              <See question J13 for complete question text>

              NOTE: This code has been updated from the one used for the
              1991 Political Consequences of War Study (ICPSR #9673)

              Good Effects

              68  11.  National Unity--united the country; showed we can
                       pull together in a crisis/will support our troops
                       in war
              45  12.  National Confidence--raised our self-
                       esteem/self-confidence; showed we are willing to
                       stand up for ourselves/not willing to be pushed
                       around; put to rest the self-doubts/bad feelings
                       over the Viet Nam war.
              96  13.  Patriotism--increased pride in the nation/flag;
                       made people proud to be American
               3  14.  Made people (more) aware of international
                       situation(s)
              21  16.  U.S. Troops--low U.S. casualties; brought soldiers
                       back safely; troops performed well; good leaders
                       emerged during the war
               7  17.  The Military--raised the morale/pride of our armed
                       forces; increased respect for the
                       military/veterans; gave the Viet Nam veterans the
                       approval/recognition they deserve
```

```
 33  18.  Military Victory--we won; proved we are capable of
              winning a war; showed that we could go into a war
              to win; demonstrated that we could win a war
              quickly/with minimum casualties
 63  19.  Military Capability--successfully tested our
              military capability; proved our high technology
              weapons would work; proved that a volunteer army
              could fight/defend the U.S.; raised confidence in

              our defense systems/ program; gave us experience in
              fighting against Soviet equipment/strategies;
              gained experience in mobilization and deployment of
              military forces.
247  21.  Respect--other nations have more respect for us; it
              made the U.S. well-liked; demonstrated U.S.
              leadership in the world; showed the world that we
              are powerful; strengthened our position in the
              world; will make other                 countries
              think twice before tangling with us
 68  22.  Resolution--showed we are willing to back up our
              words with actions/that we mean what we say/that we
              keep our promises
121  23.  New World Order--showed we will stand up to
              aggression/will protect our interests/are willing
              to fight for what is right; shows we will protect
              weaker countries from aggression by big
              countries/that we will defend freedom and democracy
              throughout the world; brought the U.S. recognition
              as a peace-keeping nation/force; might deter other
              dictators from trying the same thing in the future;
              increased the chances/ opportunity for world peace
 36  24.  Collective Security--proved that the nations of the
              world could work together for the good of mankind;
              strengthened the United Nations as a force for
              peace
  2  25.  Contributed to ending cold war/breakup of Soviet
              Union/stopping spread of communism; improved
              relations with Russia
 16  31.  U.S. Economy--strengthened/helped the economy;
              decreased the trade deficit; unemployment went
              down/ jobs opened up
145  32.  Oil--secured our oil supply; we can get the oil we
              need/more oil now; lowered the price of
              oil/gasoline; kept Saddam Hussein from taking
              control of the world's oil supply
 23  41.  Mideast Stability--increased the
              stability/prospects for peace in the mideast.
 33  42.  Relations with Mideast Nations--improved our
              relations with Israel/Arab countries/Gulf states
 54  43.  Kuwait--helped/liberated Kuwait; drove Iraq/Saddam
              Hussein from Kuwait
 74  44.  Iraq--defeated Iraq; destroyed Saddam Hussein's
              military strength/ability to make nuclear or
              biological weapons; stopped Iraq/Saddam Hussein
              from taking over other countries; cut Iraq/Saddam
              Hussein down to size
 37  49.  Other Good Effects

Good Effects

```
 2  11.  National Unity--united the country; showed we can
         pull together in a crisis/will support our troops
         in war
    12.  National Confidence--raised our self-
         esteem/self-confidence; showed we are willing to
         stand up for ourselves/not willing to be pushed
         around; put to rest the self-doubts/bad feelings
         over the Viet Nam war.
    13.  Patriotism--increased pride in the nation/flag;
         made people proud to be American
    14.  Made people (more) aware of international
         situation(s)
 1  16.  U.S. Troops--low U.S. casualties; brought soldiers
         back safely; troops performed well; good leaders
         emerged during the war
 1  17.  The Military--raised the morale/pride of our armed
         forces; increased respect for the
         military/veterans; gave the Viet Nam veterans the
         approval/recognition they deserve
    18.  Military Victory--we won; proved we are capable of
         winning a war; showed that we could go into a war
         to win; demonstrated that we could win a war
         quickly/with minimum casualties
 1  19.  Military Capability--successfully tested our
         military capability; proved our high technology
         weapons would work; proved that a volunteer army
         could fight/defend the U.S.; raised confidence in
         our defense systems/ program; gave us experience in
         fighting against Soviet equipment/strategies;
         gained experience in mobilization and deployment of
         military forces.
 5  21.  Respect--other nations have more respect for us; it
         made the U.S. well-liked; demonstrated U.S.
         leadership in the world; showed the world that we
         are powerful; strengthened our position in the
         world; will make other                   countries
         think twice before tangling with us
 1  22.  Resolution--showed we are willing to back up our
         words with actions/that we mean what we say/that we
         keep our promises
 6  23.  New World Order--showed we will stand up to
         aggression/will protect our interests/are willing
         to fight for what is right; shows we will protect
         weaker countries from aggression by big
         countries/that we will defend freedom and democracy

         throughout the world; brought the U.S. recognition
         as a peace-keeping nation/force; might deter other
         dictators from trying the same thing in the future;
```

```
                             increased the chances/ opportunity for world peace
        2  24.  Collective Security--proved that the nations of the
                             world could work together for the good of mankind;
                             strengthened the United Nations as a force for
                             peace
        1  25.  Contributed to ending cold war/breakup of Soviet
                             Union/stopping spread of communism; improved
                             relations with Russia
        1  31.  U.S. Economy--strengthened/helped the economy;
                             decreased the trade deficit; unemployment went
                             down/ jobs opened up
        2  32.  Oil--secured our oil supply; we can get the oil we
                             need/more oil now; lowered the price of
                             oil/gasoline; kept Saddam Hussein from taking
                             control of the world's oil supply
           41.  Mideast Stability--increased the
                             stability/prospects for peace in the mideast.
        1  42.  Relations with Mideast Nations--improved our
                             relations with Israel/Arab countries/Gulf states
        1  43.  Kuwait--helped/liberated Kuwait; drove Iraq/Saddam
                             Hussein from Kuwait
        4  44.  Iraq--defeated Iraq; destroyed Saddam Hussein's
                             military strength/ability to make nuclear or
                             biological weapons; stopped Iraq/Saddam Hussein
                             from taking over other countries; cut Iraq/Saddam
                             Hussein down to size
           49.  Other Good Effects

        Miscellaneous Responses (Use for both F9a and F10a)

              NOTE: This code has been updated from the one used for the
              1991 Political Consequences of War Study (ICPSR #9673)

              Good Effects
```

11. National Unity--united the country; showed we can
    pull together in a crisis/will support our troops
    in war
12. National Confidence--raised our self-
    esteem/self-confidence; showed we are willing to
    stand up for ourselves/not willing to be pushed
    around; put to rest the self-doubts/bad feelings
    over the Viet Nam war.
1 13. Patriotism--increased pride in the nation/flag;
    made people proud to be American
14. Made people (more) aware of international
    situation(s)
16. U.S. Troops--low U.S. casualties; brought soldiers
    back safely; troops performed well; good leaders
    emerged during the war
17. The Military--raised the morale/pride of our armed
    forces; increased respect for the
    military/veterans; gave the Viet Nam veterans the
    approval/recognition they deserve
18. Military Victory--we won; proved we are capable of
    winning a war; showed that we could go into a war
    to win; demonstrated that we could win a war
    quickly/with minimum casualties
19. Military Capability--successfully tested our
    military capability; proved our high technology
    weapons would work; proved that a volunteer army
    could fight/defend the U.S.; raised confidence in
    our defense systems/ program; gave us experience in
    fighting against Soviet equipment/strategies;
    gained experience in mobilization and deployment of
    military forces.
21. Respect--other nations have more respect for us; it
    made the U.S. well-liked; demonstrated U.S.
    leadership in the world; showed the world that we
    are powerful; strengthened our position in the
    world; will make other   countries

    think twice before tangling with us
22. Resolution--showed we are willing to back up our
    words with actions/that we mean what we say/that we
    keep our promises
1 23. New World Order--showed we will stand up to
    aggression/will protect our interests/are willing
    to fight for what is right; shows we will protect
    weaker countries from aggression by big
    countries/that we will defend freedom and democracy
    throughout the world; brought the U.S. recognition
    as a peace-keeping nation/force; might deter other
    dictators from trying the same thing in the future;
    increased the chances/ opportunity for world peace
24. Collective Security--proved that the nations of the
    world could work together for the good of mankind;
    strengthened the United Nations as a force for
    peace
25. Contributed to ending cold war/breakup of Soviet
    Union/stopping spread of communism; improved
    relations with Russia
1 31. U.S. Economy--strengthened/helped the economy;
    decreased the trade deficit; unemployment went
    down/ jobs opened up

```
            32.  Oil--secured our oil supply; we can get the oil we
                 need/more oil now; lowered the price of
                 oil/gasoline; kept Saddam Hussein from taking
                 control of the world's oil supply
            41.  Mideast Stability--increased the
                 stability/prospects for peace in the mideast.
            42.  Relations with Mideast Nations--improved our
                 relations with Israel/Arab countries/Gulf states
            43.  Kuwait--helped/liberated Kuwait; drove Iraq/Saddam
                 Hussein from Kuwait
       1    44.  Iraq--defeated Iraq; destroyed Saddam Hussein's
                 military strength/ability to make nuclear or
                 biological weapons; stopped Iraq/Saddam Hussein
                 from taking over other countries; cut Iraq/Saddam

mentions.

Bad Effects

 88 51.   Tarnished U.S. Image (NFS)--projected a bad image
           of U.S. to the world/in poor countries/in the
           mideast; lost us the respect of other nations;
           generated ill will/made enemies for us in other
           countries
 29 52.   Aggressor Nation--gives us the image of being an
           aggressor/warmonger nation; makes us appear willing

           to fight for pay for anyone who has the money;
           makes it easier for us to use force again when
           faced with an international problem; might make us
           overconfident in our ability to get our way by use
           of force
  8 53.   International Policeman--made ourselves the
           international policeman; obligated ourselves to
           give military protection to all/other (small)
           countries
  7 61.   Foreign Deaths--a lot of innocent people in the
           mideast were killed, displaced or wounded; deaths
           in Israel from missile attacks; Iraqis killed
           during and after the war
 24 62.   Environmental Damage--burning oil wells polluting
           the air; oil released into the Gulf polluting water
           and beaches; damage done to wild fowl and sealife
  7 63.   War Damage--damage done to countries in the
           mideast; we will have to pay for/be responsible for
           cleaning up the damage done to Iraq/Kuwait/Israel
           during the war
  5 64.   Deepened Our Involvement--we are now more deeply
           involved in the politics of the mideast/in the
           Arab-Israeli problem
 25 71.   Hurt the U.S. Economy--caused a recession; people
           lost their jobs/can't find jobs
 10 72.   Energy Costs--increased the cost of oil/gasoline;
           didn't lower/change the cost of oil/gasoline; will
           decrease or has decreased the supply of oil in the
           world/destroyed oil wells
  2 73.   Oil Dependency--increased our dependence on
           (mideast) oil for energy; made us less willing to
           develop other sources of energy
189 74.   Financial Cost--we spent a lot of money; lost a lot
           of supplies/armaments/equipment; need to raise
           taxes to pay for the war; increased our national
           debt
  3 75.   Neglected Domestic Needs--money diverted from
           domestic programs/needs in order to finance the war
     76.   Defense Spending--will encourage increased spending
           on defense; will lessen pressure to cut defense
           spending
 37 77.   Effect on U.S. Civilians--disrupted the lives of
           people called into the service/sent overseas;
           caused hardship for families of reservists called

```
              to active duty; created stress/emotional problems
              for children
   57  78.   Effect on U.S. Soldiers-- emotional/psychological
              problems caused by combat; medical
              problems/diseases contracted while in the Gulf;
              sexual assaults suffered by female soldiers

    9  79.   Bad effect on U.S. morale or character; caused
              internal divisions and/or unrest; nationalistic
              frenzy; distorted national goals and priorities;
              caused U.S. to do bad or immoral things
    8  80.   Military conduct of war was bad/doesn't reflect
              favorably on U.S.; American soldiers being killed
              by own forces; weapons that didn't work (properly);
              bad or botched military strategy
  280  81.   Left Saddam in Power--didn't get rid of/punish
              Saddam Hussein; didn't finish the job
    3  82.   Kuwait Not a Democracy--failure of Kuwait to
              establish a democratic government;
              repression/injustice being committed in Kuwait
              since the end of the war
    4  83.   Failed Rebellion--we encouraged Iraqis to rebel
              against Saddam Hussein then didn't support
              them/left them to fight alone; Kurdish refugee
              problem--all mentions
    3  84.   Troops Still in Iraq--we still have forces in Iraq;
              the war is not over yet
    4  85.   "Iraqgate"--all mentions of selling arms to/failing
              to restrain Iraq; diminished support for Gulf War/
              confidence in government because of "Iraqgate"
              events
    8  86.   Doubts about having been told the truth about the
              conduct of the war/goals of the war; skepticism
              about motives for going to war (e.g., political
              play, gain economic advantages, protect oil supply)

     Miscellaneous Responses (Use for both F9a and F10a)

   26  87.   Solved No Problems--didn't resolve any of the
              problem in the mideast; didn't cause the countries
              in the mideast to unite/get along better; didn't
              bring peace to the mideast
   22  88.   Didn't Accomplish Anything (NFS)--everything about
              the war was bad; nothing good came from the war;
              nothing (good) was accomplished

   39  89.   Other Bad Effects
    5  95.   Nothing that I can pinpoint/think of right now
              (ONLY answer given by R)
    2  96.   I can't explain it/put it into words (ONLY answer
              given by R)
   12  97.   Other Miscellaneous Response

    1  98.   DK; haven't really thought about it (first mention
              only)

   16  99.   NA; refused; R only mentions loss of American
              lives/people losing loved ones in the war (first
              mention only)
 1552  00.   Inap, 3-4, 6-7 in V3011; 5, 8-9 in J14; no further

                        mideast were killed, displaced or wounded; deaths
                        in Israel from missile attacks; Iraqis killed
                        during and after the war
               13  62.  Environmental Damage--burning oil wells polluting
                        the air; oil released into the Gulf polluting water
                        and beaches; damage done to wild fowl and sealife
                3  63.  War Damage--damage done to countries in the
                        mideast; we will have to pay for/be responsible for
                        cleaning up the damage done to Iraq/Kuwait/Israel

                        during the war
                    64.  Deepened Our Involvement--we are now more deeply
                         involved in the politics of the mideast/in the
                         Arab-Israeli problem
                6  71.  Hurt the U.S. Economy--caused a recession; people
                        lost their jobs/can't find jobs
                1  72.  Energy Costs--increased the cost of oil/gasoline;
                        didn't lower/change the cost of oil/gasoline; will
                        decrease or has decreased the supply of oil in the
                        world/destroyed oil wells
                1  73.  Oil Dependency--increased our dependence on
                        (mideast) oil for energy; made us less willing to
                        develop other sources of energy
               27  74.  Financial Cost--we spent a lot of money; lost a lot
```

```
                    of supplies/armaments/equipment; need to raise
                    taxes to pay for the war; increased our national
                    debt
      7   75.   Neglected Domestic Needs--money diverted from
                    domestic programs/needs in order to finance the war
      1   76.   Defense Spending--will encourage increased spending
                    on defense; will lessen pressure to cut defense
                    spending
     10   77.   Effect on U.S. Civilians--disrupted the lives of
                    people called into the service/sent overseas;
                    caused hardship for families of reservists called
                    to active duty; created stress/emotional problems
                    for children
     10   78.   Effect on U.S. Soldiers-- emotional/psychological
                    problems caused by combat; medical
                    problems/diseases contracted while in the Gulf;
                    sexual assaults suffered by female soldiers
      1   79.   Bad effect on U.S. morale or character; caused
                    internal divisions and/or unrest; nationalistic
                    frenzy; distorted national goals and priorities;
                    caused U.S. to do bad or immoral things
      1   80.   Military conduct of war was bad/doesn't reflect
                    favorably on U.S.; American soldiers being killed
                    by own forces; weapons that didn't work (properly);
                    bad or botched military strategy
     57   81.   Left Saddam in Power--didn't get rid of/punish
                    Saddam Hussein; didn't finish the job
          82.   Kuwait Not a Democracy--failure of Kuwait to
                    establish a democratic government;
                    repression/injustice being committed in Kuwait
                    since the end of the war
      8   83.   Failed Rebellion--we encouraged Iraqis to rebel
                    against Saddam Hussein then didn't support
                    them/left them to fight alone; Kurdish refugee
                    problem--all mentions
      3   84.   Troops Still in Iraq--we still have forces in Iraq;

                    the war is not over yet
          85.   "Iraqgate"--all mentions of selling arms to/failing
                    to restrain Iraq; diminished support for Gulf War/
                    confidence in government because of "Iraqgate"
                    events
      7   86.   Doubts about having been told the truth about the
                    conduct of the war/goals of the war; skepticism
                    about motives for going to war (e.g., political
                    play, gain economic advantages, protect oil supply)

       Miscellaneous Responses (Use for both F9a and F10a)

      7   87.   Solved No Problems--didn't resolve any of the
                    problem in the mideast; didn't cause the countries
                    in the mideast to unite/get along better; didn't
                    bring peace to the mideast
     15   88.   Didn't Accomplish Anything (NFS)--everything about
                    the war was bad; nothing good came from the war;
                    nothing (good) was accomplished

     23   89.   Other Bad Effects
          95.   Nothing that I can pinpoint/think of right now
                    (ONLY answer given by R)
```

```
             96.  I can't explain it/put it into words (ONLY answer
                  given by R)
      5      97.  Other Miscellaneous Response

             98.  DK; haven't really thought about it (first mention
                  only)
             99.  NA; refused; R only mentions loss of American
                  lives/people losing loved ones in the war (first
                  mention only)

               J14a(3).  What did you have in mind? <Regarding Bad Effects
               of the Persian Gulf War on the U.S.> (5 MENTIONS) <Third
               mention>
               -----------------------------------------------------------

               NOTE:   This code has been updated from the one used for the

               1991 Political Consequences of War Study (ICPSR #9673) 5
               mentions.

               Bad Effects

        6    51.  Tarnished U.S. Image (NFS)--projected a bad image
                  of U.S. to the world/in poor countries/in the
                  mideast; lost us the respect of other nations;
                  generated ill will/made enemies for us in other
                  countries
        5    52.  Aggressor Nation--gives us the image of being an
                  aggressor/warmonger nation; makes us appear willing
                  to fight for pay for anyone who has the money;
                  makes it easier for us to use force again when
                  faced with an international problem; might make us
                  overconfident in our ability to get our way by use
                  of force
             53.  International Policeman--made ourselves the
                  international policeman; obligated ourselves to
                  give military protection to all/other (small)
                  countries
             61.  Foreign Deaths--a lot of innocent people in the
                  mideast were killed, displaced or wounded; deaths
                  in Israel from missile attacks; Iraqis killed
                  during and after the war
        4    62.  Environmental Damage--burning oil wells polluting
                  the air; oil released into the Gulf polluting water
                  and beaches; damage done to wild fowl and sealife
        1    63.  War Damage--damage done to countries in the
                  mideast; we will have to pay for/be responsible for
                  cleaning up the damage done to Iraq/Kuwait/Israel
                  during the war
             64.  Deepened Our Involvement--we are now more deeply
                  involved in the politics of the mideast/in the
                  Arab-Israeli problem
```

71. Hurt the U.S. Economy--caused a recession; people
    lost their jobs/can't find jobs
72. Energy Costs--increased the cost of oil/gasoline;
    didn't lower/change the cost of oil/gasoline; will
    decrease or has decreased the supply of oil in the
    world/destroyed oil wells
1 73. Oil Dependency--increased our dependence on
    (mideast) oil for energy; made us less willing to
    develop other sources of energy
7 74. Financial Cost--we spent a lot of money; lost a lot
    of supplies/armaments/equipment; need to raise
    taxes to pay for the war; increased our national
    debt
75. Neglected Domestic Needs--money diverted from
    domestic programs/needs in order to finance the war

76. Defense Spending--will encourage increased spending
    on defense; will lessen pressure to cut defense
    spending
1 77. Effect on U.S. Civilians--disrupted the lives of
    people called into the service/sent overseas;
    caused hardship for families of reservists called
    to active duty; created stress/emotional problems
    for children
1 78. Effect on U.S. Soldiers-- emotional/psychological
    problems caused by combat; medical
    problems/diseases contracted while in the Gulf;
    sexual assaults suffered by female soldiers
1 79. Bad effect on U.S. morale or character; caused
    internal divisions and/or unrest; nationalistic
    frenzy; distorted national goals and priorities;
    caused U.S. to do bad or immoral things
80. Military conduct of war was bad/doesn't reflect
    favorably on U.S.; American soldiers being killed
    by own forces; weapons that didn't work (properly);
    bad or botched military strategy
8 81. Left Saddam in Power--didn't get rid of/punish
    Saddam Hussein; didn't finish the job
1 82. Kuwait Not a Democracy--failure of Kuwait to
    establish a democratic government;
    repression/injustice being committed in Kuwait
    since the end of the war
2 83. Failed Rebellion--we encouraged Iraqis to rebel
    against Saddam Hussein then didn't support
    them/left them to fight alone; Kurdish refugee
    problem--all mentions
84. Troops Still in Iraq--we still have forces in Iraq;
    the war is not over yet
85. "Iraqgate"--all mentions of selling arms to/failing
    to restrain Iraq; diminished support for Gulf War/
    confidence in government because of "Iraqgate"
    events
86. Doubts about having been told the truth about the
    conduct of the war/goals of the war; skepticism
    about motives for going to war (e.g., political
    play, gain economic advantages, protect oil supply)
Miscellaneous Responses (Use for both F9a and F10a)

2 87. Solved No Problems--didn't resolve any of the
    problem in the mideast; didn't cause the countries

```
                                     in the mideast to unite/get along better; didn't
                                     bring peace to the mideast
               5  88.   Didn't Accomplish Anything (NFS)--everything about

                                     the war was bad; nothing good came from the war;
                                     nothing (good) was accomplished

               6  89.   Other Bad Effects
                  95.   Nothing that I can pinpoint/think of right now
                                     (ONLY answer given by R)
                  96.   I can't explain it/put it into words (ONLY answer
                                     given by R)
               1  97.   Other Miscellaneous Response

                  98.   DK; haven't really thought about it (first mention
                                     only)
                  99.   NA; refused; R only mentions loss of American
                                     lives/people losing loved ones in the war (first

of the Persian Gulf War on the U.S.> (5 MENTIONS) <Fifth
mention>

NOTE: This code has been updated from the one used for the
1991 Political Consequences of War Study (ICPSR #9673) 5
mentions.

Bad Effects

51. Tarnished U.S. Image (NFS)--projected a bad image
of U.S. to the world/in poor countries/in the
mideast; lost us the respect of other nations;
generated ill will/made enemies for us in other
countries
52. Aggressor Nation--gives us the image of being an
aggressor/warmonger nation; makes us appear willing
to fight for pay for anyone who has the money;
makes it easier for us to use force again when
faced with an international problem; might make us
overconfident in our ability to get our way by use

```
           of force
      53.  International Policeman--made ourselves the
           international policeman; obligated ourselves to
           give military protection to all/other (small)
           countries
      61.  Foreign Deaths--a lot of innocent people in the
           mideast were killed, displaced or wounded; deaths
           in Israel from missile attacks; Iraqis killed
           during and after the war
      62.  Environmental Damage--burning oil wells polluting
           the air; oil released into the Gulf polluting water
           and beaches; damage done to wild fowl and sealife
      63.  War Damage--damage done to countries in the
           mideast; we will have to pay for/be responsible for
           cleaning up the damage done to Iraq/Kuwait/Israel
           during the war
      64.  Deepened Our Involvement--we are now more deeply
           involved in the politics of the mideast/in the
           Arab-Israeli problem
      71.  Hurt the U.S. Economy--caused a recession; people
           lost their jobs/can't find jobs
      72.  Energy Costs--increased the cost of oil/gasoline;
           didn't lower/change the cost of oil/gasoline; will
           decrease or has decreased the supply of oil in the

           world/destroyed oil wells
      73.  Oil Dependency--increased our dependence on
           (mideast) oil for energy; made us less willing to
           develop other sources of energy
      74.  Financial Cost--we spent a lot of money; lost a lot
           of supplies/armaments/equipment; need to raise
           taxes to pay for the war; increased our national
           debt
      75.  Neglected Domestic Needs--money diverted from
           domestic programs/needs in order to finance the war
      76.  Defense Spending--will encourage increased spending
           on defense; will lessen pressure to cut defense
           spending
      77.  Effect on U.S. Civilians--disrupted the lives of
           people called into the service/sent overseas;
           caused hardship for families of reservists called
           to active duty; created stress/emotional problems
           for children
      78.  Effect on U.S. Soldiers-- emotional/psychological
           problems caused by combat; medical
           problems/diseases contracted while in the Gulf;
           sexual assaults suffered by female soldiers
      79.  Bad effect on U.S. morale or character; caused
           internal divisions and/or unrest; nationalistic
           frenzy; distorted national goals and priorities;
           caused U.S. to do bad or immoral things
      80.  Military conduct of war was bad/doesn't reflect
           favorably on U.S.; American soldiers being killed
           by own forces; weapons that didn't work (properly);
           bad or botched military strategy
      81.  Left Saddam in Power--didn't get rid of/punish
           Saddam Hussein; didn't finish the job
      82.  Kuwait Not a Democracy--failure of Kuwait to
           establish a democratic government;
           repression/injustice being committed in Kuwait
```

since the end of the war
83. Failed Rebellion--we encouraged Iraqis to rebel
   against Saddam Hussein then didn't support
   them/left them to fight alone; Kurdish refugee
   problem--all mentions
84. Troops Still in Iraq--we still have forces in Iraq;
   the war is not over yet
85. "Iraqgate"--all mentions of selling arms to/failing
   to restrain Iraq; diminished support for Gulf War/
   confidence in government because of "Iraqgate"
   events
 1 86. Doubts about having been told the truth about the
   conduct of the war/goals of the war; skepticism
   about motives for going to war (e.g., political
   play, gain economic advantages, protect oil supply)

Miscellaneous Responses (Use for both F9a and F10a)

87. Solved No Problems--didn't resolve any of the
   problem in the mideast; didn't cause the countries
   in the mideast to unite/get along better; didn't
   bring peace to the mideast
88. Didn't Accomplish Anything (NFS)--everything about
   the war was bad; nothing good came from the war;
   nothing (good) was accomplished

 1 89. Other Bad Effects
95. Nothing that I can pinpoint/think of right now
   (ONLY answer given by R)
96. I can't explain it/put it into words (ONLY answer
   given by R)
97. Other Miscellaneous Response

98. DK; haven't really thought about it (first mention
   only)
99. NA; refused; R only mentions loss of American
   lives/people losing loved ones in the war (first
   mention only)
2483 00. Inap, 3-4, 6-7 in V3011; 5, 8-9 in J14; no further
   mention

               K2.  (RB, P. 12) I am going to read a list of words and
               phrases people may use to describe political figures.  For
               each, tell me whether the word or phrase describes the
               candidate I name.

               Think about George Bush.  In your opinion does the phrase
               "he is intelligent" describe George Bush extremely well,
               quite well, not too well, or not well at all?
```

            L1.  (RB, P. 13) Some people think the government should
            provide fewer services, even in areas such as health and
            education in order to reduce spending. Suppose these people
            are at one end of the scale at point 1. Other people feel it
            is important for the government to provide many more
            services even if it means an increase in spending.  Suppose
            these people are at the other end, at point 7.  And of
            course, some other people have opinions somewhere in between
            at points 2, 3, 4, 5, or 6.

            L1a.  Where would you place yourself on this scale, or
            haven't you thought much about this?

          L5.  (RB, P. 15) There is much concern about the rapid rise
          in medical and hospital costs.  Some people feel there
          should be a government insurance plan which would cover all
          medical and hospital expenses for everyone.  Others feel
          that all medical expenses should be paid by individuals, and
          through private insurance plans like Blue Cross or other
          company paid plans.

          L5a.  Where would you place yourself on this scale, or
          haven't you thought much about this?

               COLUMNS 2244 - 2244
               NUMERIC
               MD=0 OR GE  8

               L19.  (RB, P. 19) There is much discussion about the best
               way to deal with the problem of urban unrest and rioting.
               Some say it is more important to use all available force to
               maintain law and order -- no matter what results.  Others
               say it is more important to correct the problems of poverty
               and unemployment that give rise to the disturbances. And, of
               course, other people have opinions in between.

               L19a.  Where would you place yourself on this scale, or
               haven't you thought much about this?
               ------------------------------------------------------------

               NOTE: Due to a design error, abbreviated telephone (short
               form) and Spanish language questionnaires were produced with
               the L19a scale printed reversed in the text. Because
               interviewers handled this problem in different ways, it was
               impossible to determine which scale position a number given
               by Rs response corresponds.  Therefore, all cases of short
               form or Spanish questionnaires (3,4,6,7 in V3011) have been
               coded 9 (NA) in L19a.

X4z.  R's Religious Affiliation SUMMARY
---------------------------------------
```

This set of religion codes, which was first used in the NES
time series in 1990, was developed by a group of scholars
headed by David Leege of the University of Notre Dame and is
still in the process of refinement. A few changes have been
made since the 1990 version: codes 127 and 133 have been
combined into code 127 [no 1992 code 133]; code 102 has been
moved to become code 306 [no 1992 code 102]; and codes 267
and 261 have been added [new].

Those interested in comparing 1992 codes to the set of codes
in use through 1988, please see Addendum B

Users who wish to understand the inner working of the
religion section and summary are strongly encouraged to
examine the questionnaire in the appendix of this codebook
as well.

Variable 3850 (X4z) contains the information gathered in
question X3a,b; X4; X4a-k; X5; X5a and X6a,b. Information
collected in open-ended responses (7 in X4a, X4b, X4c, X4d,
X4e, X4f, X4g, X4h, X4i, X4j; open-ended responses for codes
18, 19, 21, 31 in X4) have been hand-coded into this summary
variable. 1990 data for panel short form cases (3 in V3011)
have been added to this variable (Although 1990 data were
not added to the individual variables from which the summary
was built).

R's with NO RELIGIOUS PREFERENCE OR IDENTIFICATION have in
all past years been included in missing data. To maintain
consistency with past practice, such cases appear in missing
data code 0 in this variable, but some users may wish to
include these cases as valid data.

GENERAL PROTESTANT

```
60  010.  Protestant, no denomination given
57  020.  Non-denominational Protestant

                Y1x.  Recoded AGE
                -----------------
```

This question was not asked of respondents on the short form
questionnaire. For panel short form respondents the data
for this variable was copied from their 1990 Post-election
responses.
This variable was built by subtracting the month and year of
R's birth from month and year of interview. For short form
cross section (4 in V3011) and those cases who refused to
give us their date of birth, we either transferred here
their age from the Household Listing in the Cover Sheet
(cross-section), or we updated their age from 1990 (panel).

```
        17.
          .
          .
        90.
        91.  91 years or older

              MD=0 OR GE  8
```

Y2. Are you married now and living with your
(husband/wife)-- or are you widowed, divorced, separated, or

have you never married?

NOTE: Y2 was not asked of panel respondents interviewed
using the "short form" questionnaire, and their marital
status from 1990 was copied here. For 22 cases the 1990
data were inconsistent with the Y21 CHECKPOINT in 1992,
alerting us to possible changes in marital status. Each
case was reviewed and Y2 was corrected using information
from the cover sheet, the thumbnail sketch and other
variables. Y2 then represents our best estimate of R's
PRESENT MARITAL STATUS.

If it is known that R is not currently married/partnered (1
in Y3c), but R refused to define specific status either as
never married, divorced, separated or widowed, then code 8
has been used.

If spouse is in nursing home or spouse works and lives in
another city, or if R's family is in the process of moving
and is temporarily split between two residences, code 1 is
used.

```

              COLUMNS 2456 - 2457
              NUMERIC
              MD=0 OR GE  99

              The stacked series of variables 4042-4051 combines
              occupation information about spouse from the "working now",
              "unemployed/retired/disabled" and "homemaker/student"
              sections.

              RC1001.  WHAT IS/WAS HIS/HER (SPOUSE'S/PARTNER'S) MAIN
              OCCUPATION?  WHAT SORT OF WORK DO/DID HE/SHE DO?

              RC1001A.  WHAT ARE/WERE HIS/HER MOST IMPORTANT ACTIVITIES OR
              DUTIES?
              ------------------------------------------------------------

              THIS VARIABLE COMBINES DATA FROM ALL RESPONDENTS'
              SPOUSES/PARTNERS WHO ARE CURRENTLY EMPLOYED, TEMPORARILY

              LAID OFF, UNEMPLOYED, RETIRED, OR PERMANENTLY DISABLED.
              [HOMEMAKERS OR STUDENTS WITHOUT OUTSIDE EMPLOYMENT ARE CODED
              0.]  IF RESPONDENT'S SPOUSE/PARTNER WAS CODED 15 OR 51
              (WORKING NOW AND RETIRED) IN Y22, HIS/HER FORMER OCCUPATION
              INFORMATION WAS USED.

              The original 3-digit 1980 US Census Occupation variable has
              been recoded into 71 subgroups, in order to protect
              Respondent's/spouse's/ partner's anonymity.  Contact NES
              Project Staff for information about a procedure by which it
              is possible to gain access to the full 3-digit code values.

              See 1980 CENSUS OCCUPATION Master Code.

VAR 924103   NAME-92PRE: Y39.
              COLUMNS 2474 - 2474
              NUMERIC
              MD=0 OR GE 8

              NES income variables traditionally are administered by
              showing respondents a list of income groups (24 categories
              in all), and asking them which one corresponds to their
              situation. This procedure cannot be easily duplicated over
              the phone. Income information from the "long form"
              questionnaire was originally coded in variables 4103-4105.
              Information from the "short form" telephone questionnaire
              was coded in variables 4106-4110. For the users'
              convenience the information from the "short form" was copied
              into variables 4103-4105. For a complete layout of the
              income section in each form please see the composite
              questionnaire.

              Y39. INTERVIEWER CHECKPOINT

               POST-ELECTION: MODE OF INTERVIEW TELEPHONE, PERSONAL

               The study design called for face-to-face interviews for all
               respondents except for a few panel respondents who had moved
               out of the range of SRC interviewers. See v3071 for coding
               of whether the respondents were in range or not. A
               SHORT-FORM or abbreviated questionnaire was prepared to use
               with these respondents over the phone. See v5002 which
               records use of short-form versus long- form questionnaires.
               Telephone interviews were in fact taken with a number of

               cross-section respondents and a number of panel respondents
               who had not moved out of range. This situation is fully
               described in the introduction, pp. v and in Technical
               Report #43, available from NES Project Staff.

==============================
VAR 925108    NAME-92POST:A4. CARE ELECT
              COLUMNS 2668 - 2668
              NUMERIC
              MD=0 OR GE  8

              Throughout the post-election questionnaire, whenever the
              term "incumbents" is used in the documentation or
              questionnaire , we are referring to a representative who was
              a member of the 102nd Congress, i.e, prior to the 1992
              General election.  Due to the U.S. Census based
              redistricting, the incumbents district for the 103rd
              Congress may consist of a fairly different geographical area
              from the area covered by the district prior to the boundary
              changes.  Therefore, the "incumbent" may or may not have
              been the respondent's district's incumbent before 1992.

              An additional complication is that a panel respondent may
              have moved since we interviewed them in 1990, or
              pre-election respondents may have moved between the pre- and
              the post-election interview. Unless stated otherwise survey
              questions always refer to R's original locations.

              A4.  As you know, representatives to Congress in Washington
```

```
             were chosen in this election from congressional districts
             all around the country. How much would you say that you
             personally cared about the way the election to the U.S.
             House of Representatives came out:  did you care very much,
             pretty much, not very much, or not at all?
             ------------------------------------------------------------

             398  1.  VERY MUCH
             762  2.  PRETTY MUCH
             681  4.  NOT VERY MUCH

```

I'd like to get your feelings toward some of our political
leaders and other people who are in the news these days.
I'll read the name of a person and I'd like you to rate that
person using something we call the feeling thermometer.
Ratings between 50 degrees and 100 degrees mean that you
feel favorable and warm toward that person.

Ratings between 0 degrees and 50 degrees mean that you don't
feel favorable toward the person and that you don't care too
much for that person. You would rate the person at the 50
degree mark if you don't feel particularly warm or cold

toward the person. If we come to a person whose name you
don't recognize, you don't need to rate that person. Just
tell me and we'll move on to the next one.

Our first person is George Bush. How would you rate him
using the feeling thermometer?

B1a. GEORGE BUSH

               D10a/D12a.  (SENATE VOTE) Who did you vote for?
               ----------------------------------------------

               SEE NOTE D10/D12.

               FOR CALIFORNIA RESIDENTS:  There were two Senate races in
               California, one for a full term, the other for a special
               election to fill an unexpired term.  Vote for the regular
               election is duplicated here.  See D10b1/D12a1 and
               D10b2/D12a2.

               In two cases R voted in CA, outside state of sample address.
               Because there is only one variable for Senate vote for Rs
               not living in California, R's vote in the regular (full
               term) CA Senate election has been coded here.  These two Rs'
               votes in the special CA Senate election are as follow:  post
               case 3718: candidate 84; post case 5360: candidate 85.

               CODES 11-16 IF R VOTED IN STATE OF SAMPLE LOCATION:

          175  11.  Democratic candidate in open Senate race
          118  12.  Republican candidate in open Senate race
          179  13.  Democratic Senate incumbent
          222  14.  Republican Senate incumbent
          168  15.  Democratic Senate challenger
           87  16.  Republican Senate challenger

               CODES 81-92 IF R VOTED OUTSIDE STATE OF SAMPLE LOCATION:

               States with No Running Incumbents

            3  81.  Dem. Candidate
            3  82.  Rep. Candidate

               States with Running Incumbents
            3  83.  Dem. Incumbent

          E7a.  (RB, P. 5) Which of these statements is closer to your
          opinion on the bad checks:
          ------------------------------------------------------------

          780  1.  Representatives who wrote bad checks acted so
                   dishonestly they should be voted out of office.
          334  2.  Writing bad checks is not a serious enough mistake
                   to disqualify someone for office.
          543  3.  Representatives who wrote only a few bad checks
                   should not be voted out of office just for that
                   reason, but representatives who wrote a lot of bad
                   checks should be voted out of office.

              People have different ideas about the government in
              Washington. These ideas don't refer to Democrats or
              Republicans in particular, but just to the government in
              general. We want to see how you feel about these ideas. For
              example:

              M5. How much of the time do you think you can trust the
              government in Washington to do what is right--just about
              always, most of the time, or only some of the time?

```
  71  1.  JUST ABOUT ALWAYS
 581  3.  MOST OF THE TIME
1528  5.  SOME OF THE TIME
  43  7.  R VOL:  NONE OF THE TIME
```

```

               P3.  (RB, P. 18) Now I have some questions about different
               groups in our society.  I'm going to show you a seven-point
               scale on which the characteristics of the people in a group
               can be rated.  In the first statement a score of 1 means
               that you think almost all of the people in that group tend
               to be "hard-working."  A score of 7 means that almost all of
               the people in the group are "lazy."  A score of 4 means that
               you think that most people in the group are not closer to
               one end or the other, and of course you may choose any
               number in between.

               P3a.  Where would you rate whites in general on this scale?

              MD=0 OR GE  8

            Q2.  (RB, P. 21) There are several different ideas about how

            to teach children who don't speak English when they enter
            our public schools.  Which one of the following three
            statements best describe how you feel:
            -------------------------------------------------------------

       735  1.  ONE, ALL CLASSES SHOULD BE CONDUCTED ONLY IN ENGLISH
                 SO THAT CHILDREN HAVE TO LEARN ENGLISH RIGHT FROM
                 THE START.
      1082  2.  TWO, CHILDREN WHO DON'T KNOW ENGLISH SHOULD HAVE
                 CLASSES IN THEIR NATIVE LANGUAGE JUST FOR A YEAR OR
                 TWO UNTIL THEY LEARN ENGLISH.
       395  3.  THERE SHOULD BE ONE SET OF CLASSES IN ENGLISH AND
                 ANOTHER SET IN SPANISH OR OTHER LANGUAGES ALL THE
                 WAY THROUGH HIGH SCHOOL SO THAT CHILDREN CAN KEEP UP
                 THEIR NATIVE LANGUAGES AND CULTURE IF THEY CHOOSE.

              Q4.  (RB, P. 22) Many different groups of people have come
              to the United States at different times in our history.  In
              recent years the population of the United States has been
              changing to include many more people of Hispanic and Asian
              background.  I'm going to read a list of things that people
              say may happen because of the growing number of Hispanic
              people in the United States.  For each of these things,
              please say how likely it is to happen.

              Q4a.  How likely is it that the growing number of Hispanics
              will improve our culture with new ideas and
              customs--extremely likely, very likely, somewhat likely, or
              not at all likely?
              ----------------------------------------------------------

              COLUMNS 3322 - 3327
              NUMERIC    DEC 4
              NO MISSING DATA CODES

              Time Series Weight
              ------------------

              This weight should be used in analyses in which the 1992 NES
              is being compared to earlier unweighted National Election
              Studies data collections.  Variable 7000 corrects for panel
              attrition and for the aging of the panel respondents.
              Details on the construction of this variable are provided in
              the Sample Design section of the introductory materials for
              the 1992 Pre- and Post-Election Survey.

              The weight is centered with a mean of 1.0.  Cases that are
              part of the new cross-section have a value of 1.0000 on
              variable 7000.  This is a five-digit variable with four
              decimal places.

              THERE ARE 4 IMPLIED DECIMAL PLACES

==============================
VAR 927001    NAME-TYPE OF INCUMBENT
              COLUMNS 3328 - 3328
              NUMERIC
              MD=9

              Was incumbent candidate respondent's representative in last
              Congress?
              -----------------------------------------------------------

              Substantial reapportionment following the 1990 Census
              occurred between the elections to the 102nd Congress (1990)
              and the 103rd Congress (1992).  Variables 3019 and 3020 give
              the 1992 and the 1990 congressional district numbers for the
              sample address in which the respondent resided at the time
              of their Pre-election interview.

              Redistricting between the 1990 and 1992 elections was quite
              extensive.  As district boundary lines changed, it is
              possible that the incumbent running for re-election in a
              respondent's district was not the incumbent who had
              previously represented the segment in which the respondent
```

lived. For example, for the 102nd Congress, Ann Arbor,
Michigan was in Michigan's 2nd District represented by Carl
Pursell. After redistricting, Ann Arbor was part of the
13th Congressional District whose incumbent, Representative
William Ford, ran for re-election to the 103rd Congress.
Ford's constituents now include Ann Arborites who had
previously been part of the 2nd District. These
constituents would be coded "2" on variable 7001, which
basically records whether respondent was represented by the
same or different incumbents in the 102nd and 103rd
Congresses.

```
 416  0.  Neither of the candidates for the 103rd Congress
          runing in respondents district was an incumbent in
          the 102nd Congress.
1555  1.  The incumbent who ran for re-election to the 103rd
          Congress in the congressional district for the
          sample segment in which respondent resided in 1992,
          is the same incumbent who represented that segment
          in the 102nd Congress.
 391  2.  The incumbent who ran for re-election in
          respondent's district in 1992 did not represent the
          sample segment in which respondent lives in the
          102nd Congress.
  24  3.  LA06:  Two Republican incumbents ran in 1992,
          neither of whom represented this segment in the
          102nd Congress.

  99  9.  Indeterminate; NA
```
